PETITION FOR EXEMPTION

Docket No.: FAA-2023-0754

Petitioner: Global Aviation Technologies

Section(s) of 14 CFR Affected: §§ 23.807(d)(1)(i); 23.811(b) and (c); and 23.812.

Description of Relief Sought: The petitioner requests relief from § 23.807(d)(1)(i), which is a commuter category airplane safety requirement, that requires an airplane with a total passenger seating capacity of 15 or fewer to have an emergency exit on each side of the cabin (as defined in § 23.807(b)) in addition to the passenger entry door.

The petitioner also requests relief from § 23.811(b) and (c), which are commuter category airplane safety requirements for emergency exit marking, that require exits and doors to be internally marked with the word “exit” by a sign that meets a specific size, color, and illumination as stated in those regulations.

The petitioner also requests relief from § 23.812, which contains the safety requirements for commuter category airplanes for emergency lighting.

The requested relief is for the Textron Model 390 airplane, Type Certificate A00010WI, which was certified as normal category. The petitioner’s project would increase the gross weight of the airplane which would necessitate compliance with the requirements for commuter category airplanes.
