As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection.

Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might "further reduce the information collection burden for small business concerns with fewer than 25 employees."

The ECIP proceeding is in response to Congressional direction in the Making Opportunities for Broadband Investment and Limiting Excessive and Needless Obstacles to Wireless Act (MOBILE NOW Act) to consider steps to increase the diversity of spectrum access and the availability of advanced telecommunications services in rural areas. The ECIP will promote greater competition in the provision of wireless services, facilitate increased availability of advanced wireless services in rural areas, facilitate new opportunities for small carriers and Tribal Nations to increase access to spectrum, and bring more advanced wireless service including 5G to underserved communities.

The Commission seeks approval for revisions to its currently approved collection of information under OMB Control Number 3060-0800 to permit the collection of the additional information and changes in connection with assignments of authorizations pursuant to the rules adopted by the Commission's ECIP Report and Order. Specifically, in the ECIP Report and Order, the Commission revised its rules to allow partition and/or disaggregation assignment applications

pursuant to § 1.950 or full assignments pursuant to § 1.948, to designate a Qualifying Transaction identified in the application as seeking consideration under the ECIP. The recordkeeping, reporting, and third-party disclosure requirements will be used by the Commission to verify licensee compliance with the Commission rules and regulations, and to ensure that licensees continue to fulfill their statutory responsibilities in accordance with the Communications Act of 1934. The Commission's rules promote the private sector development

and use of 71-76 GHz, 81-86 GHz, and 92-95 GHz bands (70/80/90 GHz bands). Such information has been used in the past and will continue to be used to minimize interference, verify that applicants are legally and technically qualified to hold license, and to determine compliance with Commission rules.
