

## **DEPARTMENT OF COMMERCE**

### **National Oceanic and Atmospheric Administration**

#### **50 CFR Part 679**

**[Docket No. 230306–0065; RTID 0648-XD274]**

### **Fisheries of the Exclusive Economic Zone Off Alaska; Pacific cod in the Bering Sea Subarea of the Bering Sea and Aleutian Islands Management Area**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and  
Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; closure.

**SUMMARY:** NMFS is prohibiting directed fishing for Pacific cod, except for the  
Community Development Quota program (CDQ), in the Bering Sea subarea of the  
Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to  
prevent exceeding the non-CDQ allocation of the 2023 Pacific cod total allowable catch  
(TAC) in the Bering Sea subarea of the BSAI.

**DATES:** Effective 1200 hrs, Alaska local time (A.l.t.), October 16, 2023, through 2400  
hrs, A.l.t., December 31, 2023.

**FOR FURTHER INFORMATION CONTACT:** Krista Milani, 907-581-2062.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the  
BSAI according to the Fishery Management Plan for Groundfish of the Bering Sea and  
Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery  
Management Council under authority of the Magnuson-Stevens Fishery Conservation  
and Management Act (Magnuson-Stevens Act). Regulations governing fishing by U.S.  
vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR  
part 679.

The non-CDQ allocation of the 2023 Pacific cod TAC in the Bering Sea subarea of the BSAI is 113,776 metric tons (mt) as established by the final 2023 and 2024 harvest specifications for groundfish in the BSAI (88 FR 14926, March 10, 2023) and correction (88 FR 18258, March 28, 2023). In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS, has determined that the non-CDQ allocation of the 2023 Pacific cod TAC in the Bering Sea subarea of the BSAI will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 110,976 mt, and is setting aside the remaining 2,800 mt as incidental catch in directed fishing for other species. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod in the Bering Sea subarea of the BSAI.

While this closure is effective, the maximum retainable amounts at 50 CFR 679.20(e) and (f) apply at any time during a trip.

### **Classification**

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest, as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the directed fishing closure of non-CDQ Pacific cod in the Bering Sea subarea of the BSAI. NMFS was unable to publish notice providing time for public comment because the most recent, relevant data only became available as of October 12, 2023.

The Assistant Administrator for Fisheries, NOAA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This

finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: October 13, 2023.
