Proposed Consent Decree, Clean Air Act Citizen Suit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed consent decree; request for public comment.

SUMMARY: In accordance with the Clean Air Act, as amended (CAA or the Act), notice is given of a proposed consent decree in *Center for Biological Diversity v. United States Environmental Protection Agency, et al.*, No. 2:23-cv-01843 (E.D. Pa.). On May 16, 2023, Plaintiff Center for Biological Diversity filed a complaint in the United States District Court for the Eastern District of Pennsylvania. Plaintiff alleged that the Environmental Protection Agency (EPA or the Agency) has unreasonably delayed taking action following the United States Court of Appeals for the Third Circuit's September 3, 2021 order in Case No. 21-1279. That order granted EPA's request to remand to EPA for reconsideration a final rule titled "Air Plan Approval; Pennsylvania; Reasonably Available Control Technology (RACT) for Volatile Organic Compounds (VOC) Under the 2008 Ozone National Ambient Air Quality Standards (NAAQS)," published in the *Federal Register* on December 14, 2020). The proposed consent decree would establish a deadline for EPA to complete its reconsideration of that final rule.

DATES: Written comments on the proposed consent decree must be received by [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

II. Additional Information about the Proposed Consent Decree

On December 14, 2020, EPA issued a final rule approving two revisions to Pennsylvania’s state implementation plan (SIP) to address certain reasonably available control technology requirements, specifically those related to control techniques guidelines for volatile organic compounds and the addition of regulations controlling volatile organic compounds

emissions from industrial cleaning solvents. That final rule was titled “Air Plan Approval; Pennsylvania; Reasonably Available Control Technology (RACT) for Volatile Organic Compounds (VOC) Under the 2008 Ozone National Ambient Air Quality Standards (NAAQS),” and published at 85 FR 80616 (December 14, 2020) (“Final Rule”).

On February 12, 2021, Plaintiff petitioned the United States Court of Appeals for the Third Circuit to review the Final Rule.¹ On August 2, 2021, EPA filed a motion for voluntary remand without vacatur in Third Circuit Case No. 21-1279 so that the Agency could reconsider the Final Rule. On September 3, 2021, the Third Circuit granted EPA’s motion for voluntary remand without vacatur. To date, EPA has not completed its reconsideration of the Final Rule. The proposed consent decree would establish a deadline for EPA to complete its reconsideration of the Final Rule. Further, if that reconsideration process results in rulemaking, EPA shall, within 15 business days of signature of a notice of a final rule, send the rulemaking package to the Office of the Federal Register for review and publication in the *Federal Register*.

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.
