

## **DEPARTMENT OF COMMERCE**

### **National Oceanic and Atmospheric Administration**

#### **50 CFR Part 679**

**[Docket No. 230306–0065; RTID 0648-XD479]**

### **Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Bering Sea and Aleutian Islands Management Area**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; reallocation.

**SUMMARY:** NMFS is reallocating the projected unused amount of Pacific cod from trawl catcher vessels to the Amendment 80 sector in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to allow the 2023 total allowable catch (TAC) of Pacific cod to be harvested.

**DATES:** Effective October 20, 2023, through 2400 hours, Alaska local time (A.l.t.), December 31, 2023.

**FOR FURTHER INFORMATION CONTACT:** Krista Milani, 907-581-2062.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR parts 600 and 679.

The 2023 Pacific cod TAC specified for trawl catcher vessels in the BSAI is 25,307 metric tons (mt) as established by the final 2023 and 2024 harvest specifications for groundfish in the BSAI (88 FR 14926, March 10, 2023), correction (88 FR 18258,

March 28, 2023) and reallocations (88 FR 56778, August 21, 2023, and 88 FR 67666, October 2, 2023).

The 2023 Pacific cod TAC allocated to the Amendment 80 sector in the BSAI is 16,954 mt as established by the final 2023 and 2024 harvest specifications for groundfish in the BSAI (88 FR 14926, March 10, 2023), and corrections (88 FR 18258, March 28, 2023 and 88 FR 67666, October 2, 2023).

The Administrator, Alaska Region, NMFS, (Regional Administrator) has determined that trawl catcher vessels will not be able to harvest 700 mt of the 2023 Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(9).

Therefore, in accordance with § 679.20(a)(7)(iii)(B), NMFS reallocates 700 mt from trawl catcher vessels to the annual amount specified the Amendment 80 sector.

The harvest specifications for 2023 Pacific cod included in final 2023 and 2024 harvest specifications for groundfish in the BSAI (88 FR 14926, March 10, 2023), correction (88 FR 18258, March 28, 2023), and reallocations (88 FR 18443, March 29, 2023; 88 FR 56778, August 21, 2023; 88 FR 67666, October 2, 2023) is revised as follows: 24,607 mt to trawl catcher vessels and 17,654 mt to the Amendment 80 sector.

### **Classification**

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would allow for harvests that exceed the originally specified apportionment of the Pacific cod TAC. NMFS was unable to publish

a notice providing time for public comment because the most recent, relevant data only became available as of October 19, 2023.

The Assistant Administrator for Fisheries, NOAA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: October 20, 2023.
