SV Hydro LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On November 16, 2023, SV Hydro LLC., filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project to be located at the U.S. Army Corps of Engineers' (Corps) Coffeeville Lock and Dam near the Town of Coffeeville, Choctaw, and Clarke Counties, Alabama. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed Coffeeville Hydroelectric Project would consist of the following: (1) a 200-foot-long, 100-foot-wide intake channel; (2) a 90-foot-long, 120-foot-wide, 50-foot-high concrete powerhouse located on the northwest bank of the river at the left abutment (looking downstream) of the existing Corps' dam containing four Kaplan bulb turbine-generator units with a total capacity of 36.0 megawatts; (3) a 250-foot-long, 100-foot-wide tailrace; (4) a switchyard, adjacent to the powerhouse; and (5) a 2.7-mile-long, 69 kilovolt transmission line. The proposed project would have an estimated annual generation of 180 megawatt-hours.
