DATES: Comments, protests, or motions to intervene must be submitted on or before **[INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].**

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 *et seq.*). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export. (16 U.S.C. 824a(e)). On April 10, 2023, the authority to issue such orders was delegated to the DOE's Grid Deployment Office (GDO) by Delegation Order No. S1-DEL-S3-2023 and Redelelegation Order No. S3-DEL-GD1-2023.

In May 2014, DOE issued Order No. EA-393, authorizing EES No. 8 to transmit electric energy from the United States to Canada as a power marketer for a five-year term. This authority was renewed in 2019 (Order No. EA-393-A). On November 9, 2023, EES No. 8 filed an application with DOE (Application or App.) for renewal of their export authority for another five-year term. App. at 1.

In its Application, EES No. 8 states that it is a “wholly-owned subsidiary of Emera Incorporated (‘Emera’), a Nova Scotia company that is a publicly-traded diversified energy and services company.” *Id.* at 1. EES No. 8 states that it “is currently authorized to export electric energy from the United States to Canada and has also received market-based rate authority from the Federal Energy Regulatory Commission (‘FERC’).” *Id.* at 1-2. According to the Application, the Applicant’s parent company, Emera, “owns other energy concerns.” *Id.* at 2. However, the Applicant states EES No. 8 itself “does not own or control any electric power generation or transmission facilities and does not have a franchised electric power service area.” *Id.* at 6.

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. *See* App. at Exhibit C.

Protests should be filed in accordance with Rule 211 of FERC’s Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at Electricity.Exports@hq.doe.gov in accordance with FERC Rule 214 (18 CFR 385.214).

A final decision will be made on the requested authorization after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after DOE evaluates whether the proposed action will have an adverse impact on the sufficiency of supply or reliability of the United States electric power supply system.
