**SUPPLEMENTARY INFORMATION:**

**Background:**

The GAP FAC serves as an advisory body to GSA's Administrator on how GSA can use its acquisition tools and authorities to target the highest priority Federal acquisition challenges. To accomplish its work, the GAP FAC

established three subcommittees: Policy and Practices, Industry Partnerships, and Acquisition Workforce.

The Policy and Practice Subcommittee will focus on procurement policy that supports robust climate and sustainability action. This group will focus on regulatory, policy, and process changes required to embed climate and sustainability considerations in Federal acquisitions.

The Industry Partnerships Subcommittee will investigate ways to expand a climate focus on Federal acquisition while reinforcing inclusion, domestic sourcing, small business opportunity, and innovation from an Industry standpoint. This includes identifying and addressing gaps in sustainable attributes standards for the goods and services that the Federal government buys.

The Acquisition Workforce Subcommittee will explore ways to advance a culture of sustainability and climate action within the acquisition workforce. This includes equipping and enabling the acquisition workforce to effectively use sustainability as a critical element in the evaluation and source selection process.

The frequency of meetings for the three subcommittees is every four weeks to give committee members additional time to reflect on the information being provided by guest speakers. The previous notice can be found here:
