

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 221223-0282; RTID 0648-XD611]

Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota

Transfer from MA to RI

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces that the Commonwealth of Massachusetts is transferring a portion of its 2023 commercial summer flounder quota to the State of Rhode Island.

This adjustment to the 2023 fishing year quota is necessary to comply with the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan (FMP) quota transfer provisions. This announcement informs the public of the revised 2023 commercial quotas for Massachusetts and Rhode Island.

DATES: Effective December 28, 2023, through December 31, 2023.

FOR FURTHER INFORMATION CONTACT: Laura Deighan, Fishery Management Specialist, (978) 281-9184.

SUPPLEMENTARY INFORMATION: Regulations governing the summer flounder fishery are found in 50 CFR 648.100 through 648.111. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through North Carolina. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.102 and final 2023 allocations were published on January 3, 2023 (88 FR 11).

The final rule implementing Amendment 5 to the Summer Flounder Fishery FMP,

as published in the **Federal Register** on December 17, 1993 (58 FR 65936), provided a mechanism for transferring summer flounder commercial quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider three criteria in the evaluation of requests for quota transfers or combinations: (1) the transfer or combinations would not preclude the overall annual quota from being fully harvested; (2) the transfer addresses an unforeseen variation or contingency in the fishery; and (3) the transfer is consistent with the objectives of the FMP and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The Regional Administrator has determined these three criteria have been met for the transfer approved in this notification.

Massachusetts is transferring 25,000 pounds (lb; 11,340 kilograms (kg)) to Rhode Island through a mutual agreement between the states. This transfer was requested to ensure Rhode Island would not exceed its 2023 quota. The revised summer flounder quotas for 2023 are Massachusetts, 1,334,363 lb (605,257 kg), and Rhode Island, 2,255,478 lb (1,023,068 kg).

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 648.102(c)(2)(i) through (iv), which was issued pursuant to section 304(b), and is exempted from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: December 27, 2023.

Jon William Bell,
Acting Director, Office of Sustainable Fisheries,
National Marine Fisheries Service.
