II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “10 CFR Part 81, ‘Standard Specification for the Granting of Patent Licenses.’” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on September 18, 2023, 88 FR 63981.

2. *OMB approval number:* 3150-0121.
3. *Type of submission:* Extension.

5. *How often the collection is required or requested:* Applications for licenses are submitted once. Other reports are submitted annually, or as other events require.
6. *Who will be required or asked to respond:* Applicants for and holders of NRC licenses to NRC inventions.
7. *The estimated number of annual responses:* 3.5.

8. *The estimated number of annual respondents: 10.*

9. *The estimated number of hours needed annually to comply with the information collection requirement or request: 10; however, no applications are anticipated during the next 3 years.*

10. *Abstract:* As specified in 10 CFR part 81, the NRC may grant nonexclusive licenses or limited exclusive licenses to its patented inventions to responsible applicants. Applicants for licenses to NRC inventions are required to provide information which may provide the basis for granting the requested license. In addition, all license holders must submit periodic reports on efforts to bring the invention to a point of practical application and the extent to which they are making the benefits of the invention reasonably accessible to the public. Exclusive license holders must submit additional information if they seek to extend their licenses, issue sublicenses, or transfer the licenses. In addition, if requested, exclusive license holders must promptly supply to the United States Government copies of all pleadings and other papers filed in any patent infringement lawsuit, as well as evidence from proceedings relating to the licensed patent.
