**SUPPLEMENTARY INFORMATION:** As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might "further reduce the information collection burden for small business concerns with fewer than 25 employees."

The collection covers the information and certifications that applicants must submit in order to comply with the Numbering Authorization Application process. On September 21, 2023, the Commission adopted a Second Report and Order that strengthens this application process by revising this information collection to ensure the Commission receives sufficient detail from interconnected VoIP applicants to make informed, public-interest-driven decisions about their direct access applications and thereby protect the public from bad actors. This information will continue help the Commission stem the tide of illegal robocalls, protect national security and law enforcement, safeguard the nation's finite numbering resources, reduce the opportunity for regulatory arbitrage, and further promote public safety.
