### Federal Railroad Administration

[Docket Number FRA-2024-0029]

### Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on February 12, 2024, Strasburg Rail Road Company (SRC) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 240 (Qualification and Certification of Locomotive Engineers). FRA assigned the petition Docket Number FRA-2024-0029.

Specifically, SRC requests relief from § 240.201, which requires that only certified persons operate locomotives and trains. The relief would allow noncertified persons to operate a historic locomotive as part of a visitor experience program, under the supervision of qualified personnel. In support of its petition, SRC notes that the relief would only apply to persons participating in the program, and that participants would be 18 years of age or older and under the direct supervision of a certified and qualified locomotive engineer. Further, all movements would take place during daylight hours and at restricted speed on approximately one mile of track, and no public grade crossings will be traversed.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov).

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments.
