SUPPLEMENTARY INFORMATION:

Under the PRA of 1995, Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. This request for comment is being made pursuant to section 3506(c)(2)(A) of the PRA.

With respect to the following collection of information, VHA invites comments on: (1) whether the proposed collection of information is necessary for the proper performance of VHA’s functions, including whether the information will have practical utility; (2) the accuracy of VHA’s estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or the use of other forms of information technology.

Authority: Public Law 104-13; 44 U.S.C. 3501–3521.

Title: VA Health Benefits: Application, Update, Hardship Determination (VA Forms 10-10EZ, 10-10EZR and 10-10HS).

OMB Control Number: 2900-0091.

Type of Review: Revision of a currently approved collection.

Abstract: Title 38 U.S.C. chapter 17 authorizes VA to provide hospital care, medical services, domiciliary care, and nursing home care to eligible Veterans. Title 38 U.S.C. 1705 requires VA to design, establish, and operate a system of annual patient enrollment in accordance with a series of stipulated priorities. Title 38 U.S.C. 1722 establishes eligibility assessment procedures for cost-free VA medical care, based on income levels, which determines whether nonservice-connected and 0% service-

connected non-compensable Veterans are able to defray the necessary expenses of care for nonservice-connected conditions. Further, when the Veteran projects that their attributable income for the current calendar year would be substantially below the applicable income thresholds, the Veteran would be considered unable to defray the expenses of care and VA may exempt the Veteran from the requirement to pay copayments for hospital or outpatient care. In addition, section 103 of Public Law 117-168, titled the Sergeant First Class Heath Robinson Honoring our Promise to Address Comprehensive Toxics (PACT) Act of 2022, amended title 38 U.S.C. 1710(e) (3) by expanding the health care eligibility benefit for Veterans who participated in a toxic exposure risk activity (TERA) while serving on active duty, active duty for training, or inactive duty training.

This collection of information is required to properly administer health benefits to eligible Veterans.

- a. VA Form 10-10EZ, Application for Health Benefits, is used to collect Veteran information during the initial application process for VA medical care, nursing home, domiciliary, dental benefits, etc. Updates were made to this form pursuant to section 103 of the PACT Act to collect additional information in the Military Service section for the expanded TERA health care eligibility benefit. Corresponding changes were made to the Instructions and Definitions sections.
- b. VA Form 10-10EZR, Health Benefits Update Form, is used to update a Veteran's personal information, such as marital status, address, health insurance and financial information, for renewal of health benefits. Updates were made to this form pursuant to section 103 of the PACT Act to collect additional information in the Military Service section for the expanded TERA

health care eligibility benefit. Corresponding changes were made to the Instructions and Definitions sections.

- c. VA Form 10-10HS, Request for Hardship Determination, is used to collect information from Veterans who are in a copay required status for hospital care and medical services, but due to a loss of income project their income for the current year will be substantially below the VA means test limits. No updates were made to this form.

These forms collect information to enroll a Veteran for health benefits, establish basic eligibility, determine TERA benefit eligibility, identify 3rd party health insurance coverage, identify prescription copayment, provide for income verification, and serve as a mechanism to make changes upon admission for benefits or yearly financial updates.
