

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2010-0040]

Concrete and Masonry Construction Standard; Extension of the Office of Management and Budget's (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comments.

SUMMARY: OSHA solicits public comments concerning the proposal to extend the Office of Management and Budget's (OMB) approval of the information collection requirements specified in the Concrete and Masonry Construction Standard.

DATES: Comments must be submitted (postmarked, sent, or received) by [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES:

Electronically: You may submit comments and attachments electronically at <https://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Docket: To read or download comments or other material in the docket, go to <https://www.regulations.gov>. Documents in the docket are listed in the <https://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the websites. All submissions, including copyrighted material, are available for inspection through the OSHA Docket Office. Contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627) for assistance in locating docket submissions.

Instructions: All submissions must include the agency name and OSHA docket number (OSHA-2010-0040) for the Information Collection Request (ICR). OSHA will place all comments, including any personal information, in the public docket, which may be made available online. Therefore, OSHA cautions interested parties about submitting personal information such as social security numbers and birthdates.

For further information on submitting comments, see the “Public Participation” heading in the section of this notice titled “**SUPPLEMENTARY INFORMATION.**”

FOR FURTHER INFORMATION CONTACT: Seleda Perryman, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor; telephone (202) 693-2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA’s estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 et seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it. The purpose of these requirements, the warning signs and barriers required by § 1926.701(c)(2) reduce exposure for non-essential workers to the hazards of post-tensioning operations. The principal hazards originate with failure of wire strands or metal rod tendons under tens of thousands of pounds tension. When strands or tendons fail and contract, they strike with catastrophic force against structures, materials, tools, and workers causing damage, serious injury, or death. The requirements to lock-out and tag-out bulk-storage ejection systems and other hazardous equipment (e.g., compressors, mixers, screens, or pumps used for concrete and masonry construction) as specified by §§ 1926.702(a)(2) and (j)(1) and (2) prevent equipment from being unexpectedly operated and warn workers that others are on/in the equipment or facility performing tasks (e.g., cleaning, inspecting, maintaining, repairing), where unexpected operation could cause serious injury or death.

Construction contractors and workers use the drawings, plans, and designs required by § 1926.703(a)(2) to provide specific instructions on how to construct, erect, brace, maintain, and remove shores and formwork if they pour concrete at the job site. Section 1926.705(b) requires employers to mark the rated capacity of jacks and lifting units. This requirement prevents overloading and subsequent collapse of jacks and lifting units, as well as their loads, thereby sparing exposed workers from serious injury or death.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;

- The accuracy of OSHA’s estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information, and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in Concrete and Masonry Construction Standard. The agency is requesting an adjustment increase of 815 hours (from 22,968 to 23,783 hours). The increase in burden is due an increase in the total number of active construction sites for residential housing going from 1,378,095 to 1,427,000.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

Type of Review: Extension of a currently approved collection.

Title: Concrete and Masonry Construction Standard.

OMB Control Number: 1218-0095.

Affected Public: Business or other for-profits.

Number of Respondents: 285,400.

Number of Responses: 285,400.

Frequency of Responses: Once.

Average Time per Response: 5 minutes.

*Estimated Total
Burden Hours:* 23,783.

*Estimated Cost
(Operation and
Maintenance):* \$0.

IV. Public Participation – Submission of Comments on this Notice and Internet

Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) electronically at <https://www.regulations.gov>, which is the Federal eRulemaking Portal; or (2) by facsimile (fax), if your comments, including attachments, are not longer than 10 pages you may fax them to the OSHA Docket Office at 202-693-1648. All comments, attachments, and other material must identify the agency name and the OSHA docket number for the ICR Docket No. OSHA-2010-0040). You may supplement electronic submission by uploading document files electronically.

Comments and submissions are posted without change at <https://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this website. All submission, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <https://www.regulations.gov> website to submit comments and access the docket is available at the website's "User Tips" link. Contact the OSHA Docket Office at (202) 693-2350, (TTY (877) 889-5627) for information about materials not available from the website, and for assistance in using the internet to locate docket submissions.

V. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 et seq.) and Secretary of Labor's Order No. 8-2020 (85 FR 58393).

Signed at Washington, DC, on March 18, 2024.

James S. Frederick,
Deputy Assistant Secretary of Labor for Occupational Safety and Health.
