

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 231215-0305; RTID 0648-XD831]

Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota Transfer from Virginia to North Carolina

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and
Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces that the Commonwealth of Virginia is transferring a
portion of its 2024 commercial summer flounder quota to the State of North Carolina.
This adjustment to the 2024 fishing year quota is necessary to comply with the Summer
Flounder, Scup, and Black Sea Bass Fishery Management Plan (FMP) quota transfer
provisions. This announcement informs the public of the revised 2024 commercial quotas
for Virginia and North Carolina.

DATES: Effective [*insert date of filing for public inspection in the Federal Register*]
through December 31, 2024.

FOR FURTHER INFORMATION CONTACT: Laura Deighan, Fishery Management
Specialist, (978) 281-9184.

SUPPLEMENTARY INFORMATION: Regulations governing the summer flounder
fishery are found in 50 CFR 648.100 through 648.111. These regulations require annual
specification of a commercial quota that is apportioned among the coastal states from
Maine through North Carolina. The process to set the annual commercial quota and the
percent allocated to each state is described in § 648.102, and the final 2024 allocations
were published on December 21, 2023 (88 FR 88266).

The final rule implementing amendment 5 to the Summer Flounder FMP, as published in the **Federal Register** on December 17, 1993 (58 FR 65936), provided a mechanism for transferring summer flounder commercial quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider three criteria in the evaluation of requests for quota transfers or combinations: (1) the transfers or combinations would not preclude the overall annual quota from being fully harvested; (2) the transfers address an unforeseen variation or contingency in the fishery; and (3) the transfers are consistent with the objectives of the FMP and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The Regional Administrator has determined these three criteria have been met for the transfer approved in this notification.

Virginia is transferring 11,004 pounds (lb; 4,991 kilograms (kg)) to North Carolina through a mutual agreement between the states. This transfer was requested to repay landings made by an out-of-state permitted vessel under a safe harbor agreement. The revised summer flounder quotas for 2024 are: Virginia, 1,865,937 lb (846,375 kg); and North Carolina, 2,409,167 lb (1,092,780 kg).

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 648.102(c)(2)(i) through (iv), which was issued pursuant to section 304(b), and is exempted from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 21, 2024.

Everett Wayne Baxter,

Acting Director, Office of Sustainable Fisheries,

National Marine Fisheries Service.
