Public comments on the ICR are invited.

**SUPPLEMENTARY INFORMATION:** The price data collected by the International Price Program (IPP) is used to produce indexes which measure, on a monthly basis, changes in transaction prices of goods and services exported from or imported into the U.S. This published data is in turn used to deflate import and export trade statistics, deflate the foreign trade component of the GDP, determine monetary and fiscal policy, negotiate trade agreements, and determine trade and commercial policy. The respondents are establishments conducting import/export trade and receive no compensation for their

participation. The IPP survey is a voluntary survey. For additional substantive information about this ICR, see the related notice published in the *Federal Register* January 19, 2024 (89 FRN 3695).
