SUPPLEMENTARY INFORMATION:

Title of Collection: Care Labeling of Textile Wearing Apparel and Certain Piece Goods As Amended, 16 CFR part 423.

OMB Control Number: 3084-0103.

Type of Review: Extension of currently approved collection.

Affected Public: Private Sector: Businesses and other for-profit entities.

Estimated Annual Burden Hours: 27,489,476 hours.

Estimated Annual Labor Costs: \$217,189,935.52.

Abstract:

The Care Labeling Rule requires manufacturers and importers of textile wearing apparel and certain piece goods to attach labels to their products disclosing the care needed for the ordinary use of the product. The Rule also requires manufacturers or importers to possess a reasonable basis for care instructions and allows the use of approved care symbols in lieu of words to disclose those instructions.

As required by section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), the FTC is providing this opportunity for public comment before requesting that OMB extend the existing clearance for the information collection requirements contained in the Rule.

Burden statement:

Staff estimates that approximately 10,744 manufacturers or importers of textile apparel, producing about 18.4 billion textile garments annually, are subject to the Rule's disclosure requirements. Staff estimates the burden of determining care instructions to be 100 hours each year per firm, for a cumulative total of 1,074,400 hours. Staff further estimates that the burden of drafting and providing labels is 80 hours each year per firm, for a total of 859,520 hours. Staff believes that the process of attaching labels is fully automated and integrated into other production steps for about 50 percent (approximately 9.2 billion) of the approximately 18.4 billion garments that are required to have care instructions on permanent labels. For the remaining 9.2 billion items, the process is semi-automated and requires an average of

approximately ten seconds per item, for a total of 25,555,556 hours per year. Thus, the total estimated annual burden for all firms is 27,489,476 hours.

The chart below summarizes the total estimated costs.

Task	Hourly Rate	Burden Hours	Labor Cost
Determine care instructions	\$31.49 ¹	1,074,400	\$33,832,856.00
Draft and order labels	\$19.47 ²	859,520	\$16,734,854.40
Attach labels	\$ 6.52 ³	25,555,556	\$166,622,225.12
TOTAL			\$217,189,935.52

Staff believes that there are no current start-up costs or other capital costs associated with the Care Labeling Rule. Because the labeling of textile products has been an integral part of the manufacturing process for decades, manufacturers have in place the capital equipment necessary to comply with the Rule’s labeling requirements. Based on knowledge of the industry, staff believes that much of the information required by the Rule would be included on the product label even absent those requirements.

Request for Comment:

Pursuant to Section 3506(c)(2)(A) of the PRA, the FTC invites comments on: (1) whether the disclosure and recordkeeping requirements are necessary, including whether the

³ For imported products, the labels generally are attached in the country where the products are manufactured. With the remaining 2.9% attributable to U.S. production at an approximate domestic hourly wage of \$14.73 to attach labels, staff has calculated a weighted average hourly wage of \$6.52 per hour attributable to U.S. and foreign labor combined.
