

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2011-0064]

Forging Machines Standard; Extension of the Office of Management and Budget's (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comments.

SUMMARY: OSHA solicits public comments concerning the proposal to extend the Office of Management and Budget's (OMB) approval of the information collection requirements specified in the Forging Machines Standard.

DATES: Comments must be submitted (postmarked, sent, or received) by [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES:

Electronically: You may submit comments and attachments electronically at <https://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Docket: To read or download comments or other material in the docket, go to <https://www.regulations.gov>. Documents in the docket are listed in the <https://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the websites. All submissions, including copyrighted material, are available for inspection through the OSHA Docket Office. Contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627) for assistance in locating docket submissions.

Instructions: All submissions must include the agency name and OSHA docket number (OSHA-2011-0064) for the Information Collection Request (ICR). OSHA will

place all comments, including any personal information, in the public docket, which may be made available online. Therefore, OSHA cautions interested parties about submitting personal information such as social security numbers and birthdates.

For further information on submitting comments, see the “Public Participation” heading in the section of this notice titled “**SUPPLEMENTARY INFORMATION.**”

FOR FURTHER INFORMATION CONTACT: Seleda Perryman, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor; telephone (202) 693-2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA’s estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 et seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it. The purpose of these requirements is to reduce

employees' risk of death or serious injury by ensuring that forging machines used by them are in safe operating condition, and that employees are able to clearly and properly identify manually operated valves and switches.

Inspection of Forging Machines, Guards, and Point-of-Operation Protection Devices (paragraphs (a)(2)(i) and (a)(2)(ii)).

Paragraph (a)(2)(i) requires employers to establish periodic and regular maintenance safety checks, and to develop and maintain a certification record of each inspection. The certification record must include the date of inspection, the signature of the person who performed the inspection, and the serial number (or other identifier) of the forging machine inspected. Under paragraph (a)(2)(ii), employers are to schedule regular and frequent inspections of guards and point-of-operation protection devices and prepare a certification record of each inspection that contains the date of the inspection, and the serial number (or other identifier) of the equipment inspected. These inspection certification records provide assurance to employers, employees, and OSHA compliance officers that forging machines, guards, and point-of-operation protection devices have been inspected, and will operate properly and safely, to prevent impact injury and death to employees during forging operations. These records also provide the most efficient means for the compliance officers to determine that an employer is complying with the Standard.

Identification of Manually Controlled Valves and Switches (paragraphs (c), (h)(3), (i)(1) and (i)(2)).

These paragraphs require proper and clear identification of manually operated valves and switches on presses, up setter, bolt heading equipment, and rivet-making machines, respectively. Marking valves and switches provide information to employees to ensure that they operate the forging machines correctly and safely. The agency determined that it is usual and customary for manufacturers to mark (for example, "On"

and “Off,” and “Open” and “Close,” etc.) all manually controlled valves and switches to meet the requirements of the American National Standards Institute’s (ANSI) standards. Therefore, OSHA is taking no burden hours or cost for these paperwork requirements.

Disclosure of Records.

OSHA determined that employers disclosing information to OSHA during an inspection is outside the scope of the PRA because OSHA would only review records in the context of an open investigation of a particular employer to determine compliance with the Standard. See 5 CFR 1320.4(a)(2).

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency’s functions to protect workers, including whether the information is useful;
- The accuracy of OSHA’s estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information, and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in the Forging Machines Standard. The agency is requesting that the burden hours of 384,107 remains the same.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

Type of Review: Extension of a currently approved collection.

Title: Forging Machines Standard.

*OMB Control
Number:* 1218-0228

Affected Public: Business or other for-profits.

*Number of
Respondents:* 27,700.

*Number of
Responses:* 1,440,400.

*Frequency of
Responses:* On occasion.

*Average Time
per Response:* 16 minutes.

*Estimated Total
Burden Hours:* 384,107.

*Estimated Cost
(Operation and
Maintenance):* \$0.

IV. Public Participation – Submission of Comments on this Notice and Internet

Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) electronically at <https://www.regulations.gov>, which is the Federal eRulemaking Portal; or (2) by facsimile (fax), if your comments, including attachments, are not longer than 10 pages you may fax them to the OSHA Docket Office at 202-693-1648. All comments, attachments, and other material must identify the agency name and the OSHA docket number for the ICR (OSHA-2011-0064). You may supplement electronic submission by uploading document files electronically.

Comments and submissions are posted without change at <https://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all

submissions are listed in the <https://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this website. All submission, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <https://www.regulations.gov> website to submit comments and access the docket is available at the website's "User Tips" link. Contact the OSHA Docket Office at (202) 693-2350, (TTY (877) 889-5627) for information about materials not available from the website, and for assistance in using the internet to locate docket submissions.

V. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 et seq.) and Secretary of Labor's Order No. 8-2020 (85 FR 58393).

Signed at Washington, DC, on April 8, 2024.

James S. Frederick,
Deputy Assistant Secretary of Labor for Occupational Safety and Health.
