Current Actions: This notice proposes the clearance of Collections Assessment for Preservation Forms. The 60-day Notice was published in the **Federal Register** on February 7, 2024 (89 FR 8457) (Document Number 2024-02432). The agency received no comments under this notice.

The Collections Assessment for Preservation (CAP) program allows up to two qualified conservators, who serve as assessors, to study all a museum's collections, buildings and building systems, as well as its policies and procedures relating to collections care. Participants who complete the program receive a report prepared by the assessor(s) with prioritized recommendations to improve collections care.

The purpose of this Notice is to solicit comments concerning the three-year approval of the seven forms necessary to support the administration and implementation of the IMLS Collections Assessment for Preservation (CAP) program. These are Application Forms to collect information about museums that wish to be considered for participation in the program; an Assessor Application Form to collect information necessary to determine whether potential assessors have sufficient qualifications to participate in the program; a Site Questionnaire to provide more detailed information about a museum to prepare for its assessment once it is accepted for participation in the program; an Application Feedback Form for museums to share information about how they heard about the program and to provide feedback about the application process; an Assessor Feedback Form for assessors to share their experiences with the CAP assessment; a Participant Feedback Form to help IMLS and the program administrator gain a better understanding of the experience of museums after participating in the program and to help improve the program for future years; and a Follow-Up Survey for CAP participants to share their longer-term experiences as a result of program participation to help IMLS and the program administrator make improvements over time.

These forms are used by the administrator of the CAP program and are necessary to support the management of the program and ongoing improvements to the services it provides. These are web-based forms that can be completed online via application software and SurveyMonkey,

allowing faster response and reducing participant burden. Paper versions of the forms can be made available for small museums that may have limited or no access to the necessary technology.

Each application cycle to the CAP program engages new participating museums, therefore requiring the use of the forms for every participant. Assessor Application Forms need only be filled out once by potential assessors who may participate in multiple application cycles.

Assessor Feedback Forms are completed by each assessor each year.
