Box 1087, Colorado Springs, Colorado 80944, filed an application under sections 7(b) and 7(c) of the Natural Gas Act (NGA), and part 157 of the Commission's regulations requesting authorization for its Totem Enhanced Deliverability Project (Project) at its Totem Storage Field (Totem) in Adams County, Colorado. The Project consists of: (1) the installation of six new injection and withdrawal (I/W) wells and connecting lateral pipelines; (2) replacement and installation of various sections of storage field pipeline; (3) reclassification of an existing I/W well to an observation well and abandon in-place the associated connecting lateral pipeline; (4) installation of various appurtenant and auxiliary facilities; and (5) injection of approximately one billion cubic feet (Bcf) of additional base gas into Totem. CIG states that the Project will improve the overall performance of Totem and increase both the maximum total inventory and base gas capacity of the field by one Bcf and maximum withdrawal rate by approximately 50 million cubic feet per day. CIG estimates the total cost of the Project to be \$79,528,414 and proposes to make the new additional incremental withdrawal deliverability available to customers through a new rate schedule, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

There is no fee or cost for filing comments or intervening. The deadline for filing a motion to intervene is 5:00 pm Eastern Time on May 13, 2024. How to file protests, motions to intervene, and comments is explained below.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings.
