Needs and Uses: The contract clause at DFARS 252.242-7005, Contractor Business Systems, requires contractors to respond to written determinations of significant deficiencies in the contractor's business systems as defined in the clause. The information contractors are required to submit in response to findings of significant deficiencies in their accounting system, estimating system, material management and accounting system and purchasing system has previously been approved by the Office of Management and Budget under separate clearance requests. This information collection specifically addresses information required by DFARS clause 252.234-7002, Earned Value Management System, for contractors to respond to determinations of significant deficiencies in a contractor's Earned Value Management System (EVMS). The requirements apply to entities that are contractually required to maintain an EVMS. DoD needs this information to document actions to correct significant deficiencies in a contractor's EVMS. DoD contracting officers use the information to mitigate the risk of unallowable and unreasonable costs being charged on government contracts.
