SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for extension of an existing information collection.

National marine sanctuary regulations provide that the public can submit areas of the marine and Great Lakes environments for consideration by NOAA as a national marine sanctuary through the sanctuary nomination process (15 CFR part 922). Persons wanting to submit nominations for consideration should submit information on the qualifying criteria and management considerations for the site to be nominated. The Office of National Marine Sanctuaries reviews the submissions, which could result in the nomination being added to an inventory of areas that NOAA may consider for sanctuary designation at some point in the future. Sanctuary designation is a separate public process that would be conducted pursuant to the requirements of the National Marine Sanctuaries Act, and all other applicable laws. This proposed information collection is for national marine sanctuary nominations received pursuant to NOAA regulations that provide that the public may nominate special places of the marine environment through the sanctuary nomination process (15 CFR part 922).
