### Federal Energy Regulatory Commission

[Docket Nos. PF24-2-000]

### **Transcontinental Gas Pipe Line Company, LLC; Notice of Scoping Meetings and Extension of Scoping Period for the Planned Southeast Supply Enhancement Project**

On May 7, 2024, the staff of the Federal Energy Regulatory Commission (FERC or Commission) issued a *Notice of Scoping Period Requesting Comments on Environmental Issues for the Planned Southeast Supply Enhancement Project, and Notice of Public Scoping Session*. The notice announced the ongoing scoping period that ends on June 6, 2024. In the notice, staff indicated that a separate notice would be issued to indicate the dates, times, and locations for in-person public scoping sessions. With this notice FERC staff invites you to attend in-person public scoping sessions it will conduct in Davidson County, North Carolina and Pittsylvania County, Virginia for the planned Southeast Supply Enhancement Project. This notice also extends the scoping period for the project, which will now close on July 5, 2024.

Transcontinental Gas Pipe Line Company, LLC (Transco) plans to construct approximately 30.6 miles of 42-inch-diameter pipeline in Pittsylvania County, Virginia and Rockingham County, North Carolina (Eden Loop) as well as 24 miles of 42-inch-diameter pipeline in Guildford, Forsyth, and Davidson Counties, North Carolina (Salem Loop). Transco additionally plans to modify compression at existing compressor stations in Pittsylvania County, Virginia and Davidson, Iredell, and Cleveland County, North Carolina; and to modify other ancillary facilities in Anderson County, South Carolina;

Walton and Henry County, Georgia; and Coosa County, Alabama. The project is planned to provide 1,586,900 Dekatherms per day of new firm transportation capacity from Transco’s existing Station 165 Zone 5 Pooling Point and Cherrystone Interconnect, both in Pittsylvania County, Virginia. The public scoping sessions are scheduled as follows:

The primary goal of these scoping sessions is to have you identify the specific environmental issues and concerns that should be considered in the environmental document. Individual oral comments will be taken on a one-on-one basis with a court reporter. This format is designed to receive the maximum amount of oral comments in a convenient way during the timeframe allotted.

Each scoping session is scheduled from 5:00 pm to 7:00 pm Eastern Daylight Time. You may arrive at any time after 5:00 pm. There will not be a formal presentation

by Commission staff when the session opens. If you wish to speak, the Commission staff will hand out numbers in the order of your arrival. Comments will be taken until 7:00 pm. However, if no additional numbers have been handed out and all individuals who wish to provide comments have had an opportunity to do so, staff may conclude the session at 6:30 pm. Please see appendix 1 for additional information on the session format and conduct.<sup>1</sup>

Your scoping comments will be recorded by a court reporter (with FERC staff or representative present) and become part of the public record for this proceeding. Transcripts will be publicly available on FERC's eLibrary system (see the last page of this notice for instructions on using eLibrary). If a significant number of people are interested in providing oral comments in the one-on-one settings, a time limit of 5 minutes may be implemented for each commentor.

It is important to note that the Commission provides equal consideration to all comments received, whether filed in written form or provided orally at a scoping session. Although there will not be a formal presentation, Commission staff will be available throughout the scoping session to answer your questions about the environmental review process. Representatives from Transco will also be present to answer project-specific questions.

As a reminder, in lieu of attending the public scoping sessions, the Commission encourages electronic filing of comments and has staff available to assist you at (866)
