SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a guidance for industry entitled “Facility Readiness: Goal Date Decisions Under GDUFA.” This guidance provides information to applicants on how FDA intends to assign a goal date based on a facility’s readiness for inspection as certified on Form FDA 356h submitted as part of an original ANDA under section 505(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(j)).
This guidance explains how FDA incorporates a performance enhancement in the GDUFA III commitment letter as part of its goal date assignments.

Under the commitment letter related to the GDUFA authorization for fiscal years 2018 through 2022 (under the Generic Drug User Fee Amendments of 2017), a goal date was assigned without regard to facility readiness for inspection. In contrast, under the GDUFA III commitment letter, FDA agreed to assign a longer goal date if a facility is not ready for an inspection at the time of application submission. An application containing a facility not ready for inspection is more likely to require more than one assessment cycle, extending the time required for possible approval and potentially delaying patient access to quality generic drugs. This change in goal date assignment will help FDA to focus resources on applications with facilities ready for inspection.

This guidance finalizes the draft guidance of the same title issued on October 7, 2022 (87 FR 61039). No public comments were received on the draft guidance. Only minor editorial changes were made.

This guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). This guidance represents the current thinking of FDA on “Facility Readiness: Goal Date Decisions Under GDUFA.” It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

While this guidance contains no collection of information, it does refer to previously approved FDA collections of information. The previously approved collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3521). The collections of information in 21 CFR part 314 for ANDAs have been approved under OMB control number 0910-0001. The collections of information in Form FDA 356h have been approved under OMB control number 0910-0338. The collections of information in 21 CFR part 11 for electronic records and electronic signatures have been approved under OMB control number 0910-0303.
