Abstract of information available

Based on the information available, human remains representing, at least, 20 individuals have been reasonably identified. The 364 lots of associated funerary objects are: 98 lots of ceramics, 111 lots of chipped stone, 26 lots of groundstone, three lots of shell, 38 lots of faunal bone, 59 lots of samples, two lots of botanicals, three lots of daub, 23 lots of other stone, and one lot of post/beam wood. In the spring semester of 1987, these human remains and associated funerary objects were removed from the Ranchería de Bernier site in Maricopa County, AZ during a field school conducted by Paul Minnis, then a research associate in the Department of Anthropology at Arizona State University (ASU). Archaeological evidence suggests the site was occupied between A.D. 630-870, during the Hohokam Pioneer to Colonial Periods. After the field season, the collection was curated by the then Department of Anthropology, now School of Human Evolution and Social Change, at ASU's CASR.

Cultural affiliation

Based on the information available and the results of consultation, cultural affiliation is clearly identified by the information available about the human remains and associated funerary objects described in this notice.

Determinations

The Arizona State University CASR has determined that:

- The human remains described in this notice represent the physical remains of 20 individuals of Native American ancestry.
- The 364 objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a reasonable connection between the human remains and associated funerary objects described in this notice and the Ak-Chin Indian Community; Gila River Indian Community of the Gila River Indian Reservation, Arizona; Hopi Tribe of Arizona; Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; Tohono O'odham Nation of Arizona; and the Zuni Tribe of the Zuni Reservation, New Mexico.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the authorized representative identified in this notice under ADDRESSES. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE **FEDERAL REGISTER**]. If competing requests for repatriation are received, the ASU Center for Archaeology and Society Repository must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The ASU Center for Archaeology and Society Repository is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.
