POLICY JUSTIFICATION

Egypt – 28-Meter Patrol Craft Kits

The Government of Egypt has requested to buy additional non-Major Defense Equipment 28-meter patrol craft production kits and technical support. The kits consist of Rigid Hull Inflatable

Boats, forward-looking infrared systems, and computer packages; technical and logistics support services; transportation; spare parts, materials, equipment, and components; and other related elements of logistical and program support. The estimated total cost is \$129 million.

This proposed sale will support United States (U.S.) foreign policy and national security objectives by helping to improve the security of a Major Non-NATO Ally that continues to be an important force for political stability and economic growth in the Middle East.

The proposed sale will improve Egypt's capacity to sustain security operations and strengthen its internal and external defense capabilities. The proposed sale will assist the Government of Egypt's maritime patrol and interdiction efforts to contribute to regional maritime security efforts in the Mediterranean and Red Sea. Egypt will have no difficulty absorbing this equipment and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Swiftships, of Morgan City, LA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Egypt involving one (1) U.S. Government representative and three (3) contractor representatives for approximately three (3) years for program management, program and technical reviews, training, maintenance support, and site surveys.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control Act

Annex  
Item No. vii

(vii) Sensitivity of Technology:

1. The 28-meter patrol craft production kits consist of Rigid Inflatable Boats, materials, equipment, and components for 28-meter patrol craft. Technical support is also included.
2. The highest level of classification of defense articles, components, and services included in this potential sale is UNCLASSIFIED.
3. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.
4. A determination has been made that the Government of Egypt can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.
5. All defense articles and services listed in this transmittal are authorized for release and export to the Government of Egypt.
