

## ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2024-0629; FRL-12544-01-OCSP]

### Clothianidin; Receipt of Application for Emergency Exemption; Solicitation of Public

#### Comment

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** EPA has received a specific exemption request from the Florida Department of Agriculture and Consumer Services (FDACS) to use the pesticide clothianidin (CAS No. 210-880-92-5) to treat up to 75,000 acres of immature (3-5 years old) citrus trees to control the transmission of Huanglongbing (HLB) disease vectored by the Asian Citrus Psyllid. The applicant proposes a use that has been requested in 5 or more previous years and for which a complete application for registration or tolerance petition has not been submitted to the Agency. Therefore, EPA is soliciting public comment before making the decision whether or not to grant the exemption.

**DATES:** Comments must be received on or before [INSERT DATE 15 DAYS AFTER DATE OF PUBLICATION IN THE *Federal Register*].

**ADDRESSES:** Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2024-0629, online at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting and visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

**FOR FURTHER INFORMATION CONTACT:** Charles Smith, Director, Registration Division (7505T), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; main telephone number: (202) 566-

1030; email address: [RDFRNotices@epa.gov](mailto:RDFRNotices@epa.gov).

## **SUPPLEMENTARY INFORMATION:**

### **I. General Information**

#### *A. Does this action apply to me?*

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

#### *B. What Should I Consider as I Prepare My Comments for EPA?*

1. *Submitting CBI.* Do not submit CBI to EPA through email or <https://www.regulations.gov>. If you wish to include CBI in your comment, please follow the applicable instructions at <https://www.epa.gov/dockets/commenting-epa-dockets#rules> and clearly mark the information that you claim to be CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or

other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticide(s) discussed in this document, compared to the general population.

## **II. What action is the Agency taking?**

Under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), at the discretion of the EPA Administrator, a Federal or State agency may be exempted from any provision of FIFRA if the EPA Administrator determines that emergency conditions exist which require the exemption. The FDACS has requested the EPA Administrator to issue a specific exemption for the use of clothianidin as a soil drench application on immature (3-5 years old) citrus trees to control the transmission of HLB disease vectored by ACP. Information in accordance with 40 CFR part 166 was submitted as part of this request.

As part of this request, the applicant asserts that clothianidin is needed to suppress the transmission of HLB disease vectored by ACP due to the lack of available alternative pesticides and effective control practices. Without this tool, Florida citrus growers are expected to experience significant economic losses due to the severity of this invasive disease and vector complex, especially when it comes to protecting young (3-5) year old citrus trees from HLB infection. The future of the citrus industry remains at risk due to no effective means to limit the infection levels of these young trees that actively flush new foliage throughout the year.

The applicant proposes to make no more than two applications of clothianidin at a maximum rate of 0.4 lb. a.i. /A (24.0 fl. oz per acre) per 12-month period on up to 75,000 acres of immature (3-5 years old) citrus trees grown in Florida from April 16, 2025-April 16, 2026. A total of 14,943 lbs. active ingredient of clothianidin may be used on the maximum acreage of 75,000 at the highest application rate.

This notice does not constitute a decision by EPA on the application itself. The regulations governing FIFRA section 18 require publication of a notice of receipt of an application for a specific exemption proposing a use which is supported by the Inter-Regional

Project Number (IR-4) program that has been requested in 5 or more previous years, and for which a complete application for registration of that use and/or petition for tolerance of residues in or on the commodity has not yet been submitted to the Agency. The notice provides an opportunity for public comment on the application.

In 2011, the FDACS submitted a petition for tolerance to EPA that was subsequently withdrawn, and an application/petition has not been resubmitted to the Agency. The notice provides an opportunity for public comment on the application. EPA will review and consider all comments received during the comment period in determining whether to issue the specific exemption requested by the FDACS.

**Authority:** 7 U.S.C. 136 *et seq.*

Dated: January 7, 2025.

**Charles Smith,**

*Director, Registration Division, Office of Pesticide Programs.*
