SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term “collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal agencies to publish a 30-day notice in the *Federal Register* concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment:

1. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Medicare Health Outcomes Survey; *Use:* The HOS is a longitudinal patient-reported outcome measure (PROM) that assesses self-reported beneficiary quality of life and daily functioning. As a PROM, the HOS measures the impact of services provided by MAOs, whereas process and patient experience measures only provide a snapshot of activities or experiences at a specific point in time. PROM data collected by the HOS allows CMS to continue to assess the health of the Medicare Advantage population. This older population is at increased risk of adverse health outcomes, including chronic diseases and mobility impairments that may significantly hamper quality of life. The HOS supports CMS’s commitment to improve health outcomes for beneficiaries while reducing burden on providers.

CMS accomplishes this by focusing on high-priority areas for quality measurement and improvement established in the agency's Meaningful Measures Framework. The HOS uses quality measures that ask beneficiaries about health outcomes related to specific mental and Physical Conditions. *Form Number:* CMS-10203 (OMB control number: 0938-0701); *Frequency:* Yearly; *Affected Public:* Individuals and Households; *Number of Respondents:* 1,275; *Total Annual Responses:* 663,150; *Total Annual Hours:* 212,208.
