1203, 1204 and 1206.

Total Annual Burden: 15 hours.

Total Annual Cost: No cost.

Needs and Uses: This is a request for a revision of a currently approved information collection related to two regulations under the Commission's part 10 Wireless Emergency Alert (WEA) rules. No other information collections contained in the Commission's regulations will be impacted by the rules described herein.

The WEA system is a mechanism under which Commercial Mobile Service (CMS) providers may elect to transmit emergency alerts to the public. The Commission created WEA (previously known as the Commercial Mobile Service Alert System) as required by Congress in the Warning Alert and Response Network (WARN) Act and to satisfy the Commission's mandate to promote the safety of life and property through the use of wire and radio communication.

On January 1, 2021, Congress passed the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (NDAA21). Section 9201 of the NDAA21 required the Commission to complete a rulemaking and adopt rules within 180 days to make certain changes to its WEA regulations, and also to its separate Emergency Alert System (EAS) regulations governing broadcast, cable television, and direct satellite media emergency alerts.

With respect to the WEA rule changes, Section 9201 directed the Commission to ensure that the mobile devices of CMS providers that have elected to participate in WEA cannot opt out of receiving WEA alerts from the Federal Emergency Management Agency (FEMA) Administrator, and to enable reporting by the FEMA Administrator and State, Tribal, or Local governments of false WEA alerts. On June 21, 2021, the Commission released its Report and Order in PS Dockets 15-91 and 15-94 (NDAA21 Alerting Order), FCC 21-77, adopting the WEA and EAS changes directed by Congress in the NDAA21. The EAS changes are the subject of a different notice to be published separately.

The NDAA21 Alerting Order implemented Congresses' new directives for WEA, in part, with two new regulations that impose new burdens on respondents: the handset display update, and false alert reporting. The handset display update requirement has since been fulfilled by respondents and the burdens will be removed from this collection pursuant to the revisions in this information collection.

With respect to false alert reporting, the Commission adopted a rule permitting the FEMA Administrator

or a State, Local, Tribal, or Territorial government to voluntarily report WEA false alerts to the FCC Operations Center at FCCOPS@fcc.gov, informing the Commission of the event and any relevant details. This rule created a voluntary mechanism for collection of information so that the Commission can monitor these false alert events which can undermine public confidence in the reliability of emergency alerting and WEA. Email reporting was adopted as a minimally-burdensome way for government entities to report false alerts. The WEA false alert reporting regulation is codified at 47 CFR 10.520(d)(2).
