l. Description of Request: Pacific Gas & Electric Company is proposing to restore the Lower Feeley Lake Dam (Carr Lake) Crest to its original design elevation and associated upstream toe along with enhanced protection to the upstream slope. A variance in the minimum flows required by Article 39 is necessary to facilitate the work. Approving the variance would allow the licensee to reduce flows released from the Lower Feeley Dam from the required flow of 0.5 cubic-feet-per-second (cfs) target to a 0.4 cfs target and reduce the allowable minimum flow from 0.2 cfs to 0.1 cfs. The described reduction in flows would occur from June 1, 2025 until November 30, 2025.
