14 CFR Part 71

[Docket No. FAA-2024-2530; Airspace Docket No. 24-ASO-33]

RIN 2120-AA66

Amendment of Class E Airspace; Ahoskie, NC

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace extending upward from 700 feet above the surface for Ahoskie, NC, by adding airspace for ECU Health Roanoke Chowan Heliport, Ahoskie, NC, to accommodate new instrument approach procedures. This action also amends the airport information for Tri-County at Henry Joyner Field Airport by updating the airport name and coordinates. Additionally, this action brings the Ahoskie Class E airspace into compliance with FAA orders. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations at this heliport.

DATES: Effective 0901 UTC, April 17, 2025. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: A copy of the Notice of Proposed Rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at www.regulations.gov using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours a day, 365 days a year.

SUPPLEMENTARY INFORMATION:

Authority for this Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it amends Class E airspace extending upward from 700 feet above the surface in Ahoskie, NC.

History

The FAA published a notice of proposed rulemaking for Docket No. FAA 2024-2530 in the *Federal Register* (89 FR 93530; November 27, 2024), proposing to amend Class E airspace extending upward from 700 feet above the surface for ECU Health Roanoke Chowan Heliport, Ahoskie, NC. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Incorporation by Reference

Class E airspace is published in paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11J, dated July 31, 2024, and effective September 15, 2024. FAA Order JO 7400.11J is publicly available as listed in the ADDRESSES section of this document. These amendments will be published in the next update to FAA Order JO 7400.11. FAA Order JO 7400.11J lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to 14 CFR part 71 amends Class E airspace by adding airspace extending upward from 700 feet above the surface within a 6-mile radius of ECU Health Roanoke Chowan Heliport, Ahoskie, NC. This action provides the controlled airspace required to support the new RNAV (GPS) standard instrument approach procedure for instrument flight rules (IFR) operations at the heliport. This action also corrects the coordinates and airport name for Tri-County at Henry Joyner Field Airport. Additionally, this action removes the city associated with the airport in the airspace legal description to comply with changes to FAA Order JO 7400.2P, Procedures for Handling Airspace Matters. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations in the area.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since

this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5-6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant the preparation of an environmental assessment.
