Under the Communications Act of 1934, as amended, the Commission was given “exclusive jurisdiction over those portions of the North American Numbering Plan that pertains to the United States.” Pursuant to that authority, the Commission conducted a rulemaking in March 2000 that the Commission found that mandatory data collection is necessary to efficiently monitor and manage numbering use. The Commission received OMB approval for this requirement and the following:

- (1) Utilization/Forecast Report;
- (2) Application for initial numbering resource;
- (3) Application for growth numbering resources;
- (4) Recordkeeping requirement;
- (5) Notifications by state commissions;
- (6) Demonstration to state commission; and
- (7) Petitions for additional delegation of numbering authority.

The data from this information collection is used by the FCC, state regulatory commissions, and the NANPA to monitor numbering resource utilization by all carriers using the resource and to project the dates of area code and NANP exhaust.
