New England Hydropower Company, LLC; Notice of Preliminary Permit

Application Accepted for Filing and Soliciting Comments, Motions to Intervene, and Competing Applications

On February 6, 2025, New England Hydropower Company, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Eastvale Dam Hydroelectric Project (Eastvale Project) on the Beaver River in Beaver County, near the City of Beaver Falls in Pennsylvania. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed Eastvale Project would consist of the following: (1) an existing 490-foot-long, 12.5-foot-high concrete-lined dam with an overflow crest elevation of 730.7 feet mean sea level (msl); (2) an existing impoundment; (3) three new 24-foot-wide, 87-foot-long turbine bays each housing two turbine-generator units – each unit with a capacity of 350 kilowatts (kW) for a total capacity of 2,100 kW; (4) a new 16-foot-wide, 35-foot-long electrical control building; (5) a new 100-foot-long transmission line; and (6) appurtenant facilities. The proposed project would have an annual generation of 9,200 megawatt-hours.

Applicant Contact: Michael Kerr, New England Hydropower Company, LLC, 100 Cummings Center, Suite 451C, Beverly, MA 01915; phone: (978) 360-2547.
