National Agricultural Statistics Service

Title: Stocks Reports.

OMB Control Number: 0535-0007.

Summary of Collection: The National Agricultural Statistics Service's primary function is to prepare and issue current, official State and national estimates of crop and livestock production, stocks, disposition, and prices. As part of this function, estimates are made for stocks of off-farm grains and oilseeds, hops, peanuts, potatoes, and rice. Statistics for the set of crops included in this docket are collected because of the large volume produced, high value of production, and significant public interest. General authority for data collection is granted under U.S. Code title 7, section 2204. This statute specifies that "The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain ...by the collection of statistics...and shall distribute them among agriculturists."

Need and Use of the Information: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, stocks, disposition, and prices. The *Stocks Report* surveys, provide estimates of stocks of grains, hops, oilseeds, peanuts, potatoes, and rice that are stored off-farm. These off-farm stocks are combined with on-farm stocks to estimate stocks in all positions. The *Stocks Reports* are a principle economic indicator as defined by OMB. Stocks statistics are used by the U.S. Department of Agriculture to help administer programs; by State agencies to develop, research, and promote the marketing of products; and by producers and buyers to find their best market opportunity(s). The *Stocks Reports* are instrumental in providing timely, accurate data to help grain market participants. In order to maintain a complete and comprehensive list of operations, NASS needs to conduct an Operation Profile survey annually to add new operations to the survey population. This profile is also used to identify operations that do not meet the criteria to be included in the Off-farm Grain and Oilseeds Survey.
