[Docket No. CP25-204-000]

#### Northwest Pipeline LLC; Notice of Application and Establishing Intervention

##### Deadline

Take notice that on April 10, 2025, Northwest Pipeline LLC (Northwest), Post Office Box 1396, Houston, Texas 77251, filed an application under section 7(b) and 7(c) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations requesting authorization for its Kemmerer Horsepower Replacement Project (Project) in Lincoln County, Wyoming. Specifically, the Project would include the abandonment in place of four existing reciprocating compressor units and one legacy gas turbine compressor unit (total of 13,200 ISO-rated horsepower (HP) (9,637 site-rated)) to be replaced with one new Solar Mars 90 turbine-driven unit (13,220 ISO-rated HP (8,936 site-rated HP)) and additional ancillary facilities and piping at the Kemmerer Compressor Station. The Project is part of Northwest's Modernization and Emissions Reduction (MER) Program<sup>1</sup> which involves the replacement of twenty-two vintage natural gas reciprocating compressors and turbine engines with gas turbine-driven compressors with low emissions technology over a period of six years. The MER Program is expected to reduce Northwest's nitrogen oxide emissions by 93% and potential methane emissions by 89%. The reduction in site-rated horsepower at the Kemmerer Compressor Station will not affect the design delivery capacity or customer service obligations. Northwest estimates

that the total cost of the Project to be \$73,018,593, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or environmental assessment (EA) for this proposal. The filing of an EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

### **PUBLIC PARTICIPATION**

There are three ways to become involved in the Commission's review of this project: you can file comments on the project, you can protest the filing, and you can file a motion to intervene in the proceeding. There is no fee or cost for filing comments or intervening. The deadline for filing a motion to intervene is 5:00 p.m. Eastern Time on **May 7, 2025**. How to file protests, motions to intervene, and comments is explained below.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, community organizations, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or [OPP@ferc.gov](mailto:OPP@ferc.gov).

### **Comments**

Any person wishing to comment on the project may do so. Comments may include statements of support or objections, to the project as a whole or specific aspects of the project. The more specific your comments, the more useful they will be.

### **Protests**

Pursuant to sections 157.10(a)(4)<sup>3</sup> and 385.211<sup>4</sup> of the Commission's regulations under the NGA, any person<sup>5</sup> may file a protest to the application. Protests must comply with the requirements specified in section 385.2001<sup>6</sup> of the Commission's regulations. A protest may also serve as a motion to intervene so long as the protestor states it also seeks to be an intervenor.

To ensure that your comments or protests are timely and properly recorded, please submit your comments on or before **May 7, 2025**.

There are three methods you can use to submit your comments or protests to the Commission. In all instances, please reference the Project docket number **CP25-204-000** in your submission.

- (1) You may file your comments electronically by using the eComment feature, which is located on the Commission's website at [www.ferc.gov](http://www.ferc.gov) under the link to Documents and Filings. Using eComment is an easy

Persons who comment on the environmental review of this project will be placed on the Commission's environmental mailing list, and will receive notification when the environmental documents (EA or EIS) are issued for this project and will be notified of meetings associated with the Commission's environmental review process.

The Commission considers all comments received about the project in determining the appropriate action to be taken. **However, the filing of a comment alone will not serve to make the filer a party to the proceeding.** To become a party, you must intervene in the proceeding. For instructions on how to intervene, see below.

### **Interventions**

Any person, which includes individuals, organizations, businesses, municipalities, and other entities,<sup>7</sup> has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

regulations under the NGA<sup>9</sup> by the intervention deadline for the project, which is **May 7, 2025**. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene.

For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to/intervene.asp>. There are two ways to submit your motion to intervene. In both instances, please reference the Project docket number **CP25-204-000** in your submission.
