**SUPPLEMENTARY INFORMATION:**

*Title:* Dairy Products Mandatory Sales Reporting.

*OMB Number:* 0581-0274.

*Expiration Date of Approval:* February 28, 2026.

*Type of Request:* Extension and revision of a currently approved collection.

*Abstract:* Under the Agricultural Marketing Act of 1946 (7 U.S.C. 1621 *et seq.*), as amended, persons engaged in manufacturing dairy products are required to provide to the Department of Agriculture (USDA) certain information, including the price, quantity, and moisture content, where applicable, of dairy products sold by the manufacturer. Manufacturers and other persons storing dairy products must also report to USDA information on the quantity of dairy products stored. This information is used by USDA to help administer Federal programs and is used by the dairy industry in planning, pricing, and projecting supplies of milk and milk products.

Under the Dairy Product Mandatory Reporting Program (7 CFR part 1170), various manufacturer reports are filed electronically on a weekly basis. USDA publishes composites of the information obtained to help industry members make informed marketing decisions regarding dairy products. The information is also used to establish minimum prices for Class III and Class IV milk under Federal milk marketing orders. Additional paper forms are filed by manufacturers on an annual basis to validate participation in the mandatory reporting program. USDA uses the information collected to verify compliance with applicable regulations.

Only authorized representatives of USDA, including AMS Dairy Program's regional and headquarters staff, have access to information provided on the forms.

Requesting public comments on the information collection and forms described below is part of the process to obtain approval through the Office of Management and Budget (OMB). Forms needing OMB approval are contained in OMB No. 0581-0274 and include forms for reporting cheddar cheese price and volume (DY-202); butter price and volume (DY-201); nonfat dry milk price and volume (DY-205); and dry whey price and volume (DY-204). Annual validation information is reported on Forms DA-230 and DA-230-S. Manufacturers and others who are required to file reports under this program must also maintain original records associated with the sale and storage of dairy products for two years and must make those records available to USDA upon request. Manufacturers who produce and annually market less than one million pounds of cheddar cheese, butter, nonfat dry milk, or dry whey are exempt from the reporting requirements for those products.

Information collection requirements included in this request for an extension are as follows:

(1) Dairy Products Sales, Cheddar Cheese, 40-Pound Blocks

*Estimate of Burden:* The public reporting burden for this collection of information is estimated to average 20 minutes per week for each report submitted.

*Estimated Total Annual Burden on Respondents:* 32 hours.

(6) Follow-Up Verification for Data Reported in items (1) – (4)

Follow up questions may be sent to respondents for questionable data submitted for the weekly dairy product sales data collection. The follow-up verification is sent via email or phone call.

*Estimate of Burden:* The public reporting burden for this collection of information is estimated to average 5 minutes for each contact from AMS.

*Respondents:* Dairy manufacturers. AMS may contact manufacturers required to report in sections (1) – (4) as necessary to follow up on missing or incomplete reports and ensure accurate information is provided by manufacturers.

*Estimated Number of Respondents:* 7.

*Estimated Number of Responses per Respondent:* 52

*Estimated Total Annual Burden on Respondents:* 30 hours.

*Comments:* Comments are invited on: (1) Whether the proposed collection of the information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden

of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments on this notice will be summarized and included in the submission for OMB approval and will become a matter of public record.

AMS is committed to complying with the E-Government Act to promote the use of the internet and other information technologies, to provide increased opportunities for citizen access to Government information and services, and for other purposes.

A 60-day comment period is provided to allow interested persons to respond to the notice.
