Abstract: As a law enforcement agency, the United States Marshals Service has unique medical requirements that prevent USMS from using current medical-related Standard and Optional forms. These forms have been developed to allow USMS to ensure that the applicants, contract employees and current federal employees who work in operational law enforcement positions are physically fit enough to perform their duties safely and successfully.

The physician returns the evaluation to the contracting company, and if the determination is that the CSO may return to work, the CSO-012 is then signed off on by the contracting company and forwarded to the USMS for final review by USMS' designated medical reviewing official. Court Security Officers are contractors, not employees of USMS; Form USM-522A does not apply to CSOs.
