SUPPLEMENTARY INFORMATION: CISA's Office of the Chief Acquisition Executive (OCAE) seeks to automate the collection of information from vendors wishing to engage with CISA through a new industry engagement registration and account creation process in ServiceNow. The purpose of this collection is to facilitate efficient and effective interactions between CISA and vendors possessing innovative capabilities that align with CISA's mission. This system will also maintain an internal database of vendor capabilities, which will serve as a vital reference for identifying potential partners and solutions that meet CISA's operational needs and objectives.

Response to Public Comment: During the 60-day public comment period, CISA received one comment expressing the opinion that the agency should not exist and should not engage in any contracts, citing concerns about the agency's impact on free speech.

CISA acknowledges this feedback; however, the comment is outside the scope of this information collection request, which is focused on the process of vendor engagement and registration to support CISA's operational needs. The comment does not address the specific aspects of the information collection under review, such as the necessity, utility, or burden of the proposed data collection.
