

## DEPARTMENT OF ENERGY

### 10 CFR Parts 429 and 431

[EERE-2025-BT-DET-0007]

RIN 1904-AF77

### Energy Conservation Program: Proposed Withdrawal of Determination of Compressors as a Covered Equipment

**AGENCY:** Office of Energy Efficiency and Renewable Energy, Department of Energy (DOE).

**ACTION:** Notice of proposed withdrawal of determination; request for comments.

**SUMMARY:** DOE is proposing to withdraw its prior determination that compressors qualify as covered equipment under Part A-1 of Title III of the Energy Policy and Conservation Act, as amended (“EPCA”).

**DATES:** *Comments:* Comments must be received on or before [INSERT 60 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

*Meeting:* DOE will hold a meeting via a webinar on Thursday, May 29, 2025, from 1:00 p.m. to 4:00 p.m. See section III of this document, “Public Participation,” for webinar registration information, participant instructions and information about the capabilities available to webinar participants.

**ADDRESSES:** Interested persons are encouraged to submit comments using the Federal eRulemaking Portal at [www.regulations.gov](http://www.regulations.gov) under docket number EERE-2025-BT-DET-0007. Follow the instructions for submitting comments. Alternatively, interested persons may submit comments, identified by docket number EERE-2025-BT-DET-0007, by any of the following methods:

(1) *Email:* [Compressors2025DET0007@ee.doe.gov](mailto:Compressors2025DET0007@ee.doe.gov). Include the docket number EERE-2025-BT-DET-0007 in the subject line of the message. Submit electronic comments in WordPerfect,

Microsoft Word, PDF, or ASCII file format, and avoid the use of special characters or any form of encryption.

(2) *Postal Mail*: Appliance and Equipment Standards Program, U.S. Department of Energy, Building Technologies Office, Mailstop EE-5B, 1000 Independence Avenue SW, Washington, DC 20585-0121. Telephone: (202) 287-1445. If possible, please submit all items on a compact disc (“CD”), in which case it is not necessary to include printed copies.

(3) *Hand Delivery/Courier*: Appliance and Equipment Standards Program, U.S. Department of Energy, Building Technologies Office, 1000 Independence Avenue SW, Washington, DC 20585-0121. Telephone: (202) 287- 1445. If possible, please submit all items on a CD, in which case it is not necessary to include printed copies.

No telefacsimiles (“faxes”) will be accepted. For detailed instructions on submitting comments and additional information on this process, see section III of this document.

*Docket*: The docket for this proposed withdrawal of determination, which includes *Federal Register* notices, public meeting attendee lists and transcripts (if one is held), comments, and other supporting documents and materials, is available for review at [www.regulations.gov](http://www.regulations.gov). All documents in the docket are listed in the [www.regulations.gov](http://www.regulations.gov) index. However, not all documents listed in the index may be publicly available, such as information that is exempt from public disclosure.

The docket web page can be found at [www.regulations.gov/docket/EERE-2025-BT-DET-0007](http://www.regulations.gov/docket/EERE-2025-BT-DET-0007).

The docket web page contains instructions on how to access all documents, including public comments, in the docket, as well as a summary of the rulemaking. See section III of this document, “Public Participation,” for further information on how to submit comments through [www.regulations.gov](http://www.regulations.gov).

**FOR FURTHER INFORMATION CONTACT:**

Mr. David Taggart, U.S. Department of Energy, Office of the General Counsel, GC-1, 1000 Independence Avenue SW, Washington, DC 20585-0121. Telephone: (202) 586- 5281. Email: [DOEGeneralCounsel@hq.doe.gov](mailto:DOEGeneralCounsel@hq.doe.gov).

For further information on how to submit a comment or review other public comments and the docket contact the Appliance and Equipment Standards Program staff at (202) 287-1445 or by email: [ApplianceStandardsQuestions@ee.doe.gov](mailto:ApplianceStandardsQuestions@ee.doe.gov).

### **I. General Discussion**

Under EPCA, DOE may add a type of industrial equipment to the list of covered equipment for which energy conservation standards can be established. (42 U.S.C. 6311(2)(b)(1) and 6312(b)) The coverage determination procedures require DOE to determine that classifying industrial equipment of such type as covered equipment is necessary to carry out the purposes of this part. (42 U.S.C. 6312(b)) After coverage is determined, DOE may then adopt standards and

test procedures regulating such equipment, pursuant to the requirements set out in the statute.

(See generally 42 U.S.C. 6314, 6316(a), 6295(o))

On December 31, 2012, DOE published in the *Federal Register* a notice of proposed determination (“NOPD”) that proposed a coverage of compressors. 77 FR 76972 (“December 2012 NOPR”). After considering public comments, DOE finalized the coverage determination for compressors. 81 FR 79991 (Nov. 15, 2016) (“November 2016 Determination”). As part of the November 2016 Determination, DOE adopted a definition for compressors. 81 FR 79991, 79998.

DOE has reevaluated whether including compressors as a covered equipment is necessary to carry out the purpose of Part A-1 of EPCA. Based on that evaluation, DOE has tentatively determined that it is unnecessary to include compressors as covered equipment. EPCA provides the Secretary discretion in including a type of industrial equipment as covered equipment because the Secretary *may* classify equipment if certain requirements are met. (See 42 U.S.C. 6312(b) (emphasis added))

The proposed withdrawal is consistent with a policy to classify industrial equipment as covered equipment only if energy conservation standards will significantly increase the energy resources of the nation, without compromising the performance of industrial products. DOE has tentatively determined that the inclusion of compressors does not meet that standard.

Additionally, the proposed withdrawal is consistent with the Secretary’s position that regulatory burdens should be reduced wherever possible, consistent with DOE’s statutory obligations.

DOE is seeking comment on all aspects of this proposal, including the November 2016 Determination’s consistency with DOE’s statutory authority and the constitution, its costs and benefits, and its impact on small businesses and innovation.

If DOE proceeds with issuing a final withdrawal of the coverage determination for compressors, then DOE subsequently lacks the authority to prescribe test procedures and energy

conservation standards for compressors. (See 42 U.S.C. 6314(b), 6295(o)(2)(A), (o)(3)(B)) For this reason, DOE is also proposing to withdraw the applicable test procedures, certification requirements, and energy conservations standards for compressors. See 10 CFR 429.63, 431.344, 431.345.

## **II. Procedural Issues and Regulatory Review**

### *A. Review under Executive Order 12866*

Executive Order (“E.O.”) 12866, “Regulatory Planning and Review,” requires agencies, to the extent permitted by law, to (1) propose or adopt a regulation only upon a reasoned determination that its benefits justify its costs; (2) tailor regulations to impose the least burden on society, consistent with obtaining regulatory objectives, taking into account, among other things, and to the extent practicable, the costs of cumulative regulations; (3) select, in choosing among alternative regulatory approaches, those approaches that maximize net benefits; (4) to the extent feasible, specify performance objectives, rather than specifying the behavior or manner of compliance that regulated entities must adopt; and (5) identify and assess available alternatives to direct regulation, including providing economic incentives to encourage the desired behavior, such as user fees or marketable permits, or providing information upon which choices can be made by the public. For the reasons stated in the preamble, this proposed regulatory action is consistent with these principles.

Section 6(a) of E.O. 12866 also requires agencies to submit “significant regulatory actions” to OIRA for review. OIRA has determined that this proposed regulatory action does not constitute a “significant regulatory action” under section 3(f) of E.O. 12866. Accordingly, this proposed action was not submitted to OIRA for review under E.O. 12866.

### *B. Review under Regulatory Flexibility Act*

Under the Regulatory Flexibility Act (as amended by the Small Business Regulatory Enforcement Fairness Act (“SBREFA”) of 1996; 5 U.S.C. 601 *et seq.*), whenever a Federal agency is required to publish a notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis that describes the effect of the rule on small entities (*i.e.*, small businesses, small organizations, and small government jurisdictions).

DOE reviewed this proposed withdrawal of determination under the provisions of the Regulatory Flexibility Act and the policies and procedures published on February 19, 2003. If this proposal is adopted, DOE would no longer have the authority to consider establishing or amending test procedures. Therefore, DOE initially concludes that the impacts of the proposed withdrawal of determination would not have a “significant economic impact on a substantial number of small entities,” and that the preparation of an IRFA is not warranted. DOE will transmit this certification and supporting statement of factual basis to the Chief Counsel for Advocacy of the Small Business Administration for review under 5 U.S.C. 605(b).

#### *C. Review Under the Paperwork Reduction Act*

This proposed withdrawal of determination, which proposes that compressors do not meet the criteria for a covered equipment for which the Secretary may consider prescribing energy conservation standards pursuant to 42 U.S.C. 6295(o) and (p), imposes no new information or record-keeping requirements. Accordingly, OMB clearance is not required under the Paperwork Reduction Act. (44 U.S.C. 3501 *et seq.*)

#### *D. Review Under the National Environmental Policy Act of 1969*

DOE is analyzing this proposed action in accordance with National Environmental Policy Act of 1969, as amended, (“NEPA”) and DOE’s NEPA implementing regulations (10 CFR part 1021). DOE's regulations include categorical exclusions for certain rulemakings. See 10 CFR part 1021, subpart D, appendices A and B. DOE is considering the categorical exclusions

potentially applicable to this proposed rule, such as B5.1, and welcomes comment on the potential application of categorical exclusion(s). DOE will complete its NEPA review before issuing the final rule.

*E. Review Under Executive Order 13132*

E.O. 13132, “Federalism,” 64 FR 43255 (Aug. 10, 1999), imposes certain requirements on Federal agencies formulating and implementing policies or regulations that preempt State law or that have federalism implications. The Executive order requires agencies to examine the constitutional and statutory authority supporting any action that would limit the policymaking discretion of the States and to carefully assess the necessity for such actions. The Executive order also requires agencies to have an accountable process to ensure meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications. On March 14, 2000, DOE published a statement of policy describing the intergovernmental consultation process it will follow in the development of such regulations. 65 FR 13735. DOE has examined this proposed withdrawal of determination and has tentatively determined that it would not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. EPCA governs and prescribes Federal preemption of State regulations as to energy conservation for the products that are the subject of this proposed withdrawal of determination. States can petition DOE for exemption from such preemption to the extent, and based on criteria, set forth in EPCA. 42 U.S.C. 6316(a) and (b); 42 U.S.C. 6297. Therefore, no further action is required by E.O. 13132.

*F. Review Under Executive Order 12988*

With respect to the review of existing regulations and the promulgation of new regulations, section 3(a) of E.O. 12988, “Civil Justice Reform,” imposes on Federal agencies the general duty to adhere to the following requirements: (1) eliminate drafting errors and

ambiguity, (2) write regulations to minimize litigation, (3) provide a clear legal standard for affected conduct rather than a general standard, and (4) promote simplification and burden reduction. 61 FR 4729 (Feb. 7, 1996). Regarding the review required by section 3(a), section 3(b) of E.O. 12988 specifically requires that Executive agencies make every reasonable effort to ensure that the regulation (1) clearly specifies the preemptive effect, if any, (2) clearly specifies any effect on existing Federal law or regulation, (3) provides a clear legal standard for affected conduct while promoting simplification and burden reduction, (4) specifies the retroactive effect, if any, (5) adequately defines key terms, and (6) addresses other important issues affecting clarity and general draftsmanship under any guidelines issued by the Attorney General. Section 3(c) of E.O. 12988 requires Executive agencies to review regulations in light of applicable standards in section 3(a) and section 3(b) to determine whether they are met or it is unreasonable to meet one or more of them. DOE has completed the required review and determined that, to the extent permitted by law, this proposed withdrawal of determination meets the relevant standards of E.O. 12988.

#### *G. Review Under the Unfunded Mandates Reform Act of 1995*

Title II of the Unfunded Mandates Reform Act of 1995 (“UMRA”) requires each Federal agency to assess the effects of Federal regulatory actions on State, local, and Tribal governments and the private sector. Pub. L. 104-4, sec. 201 (codified at 2 U.S.C. 1531). For a regulatory action likely to result in a rule that may cause the expenditure by State, local, and Tribal governments, in the aggregate, or by the private sector of \$100 million or more in any one year (adjusted annually for inflation), section 202 of UMRA requires a Federal agency to publish a written statement that estimates the resulting costs, benefits, and other effects on the national economy. (2 U.S.C. 1532(a), (b)) The UMRA also requires a Federal agency to develop an effective process to permit timely input by elected officers of State, local, and Tribal governments on a “significant intergovernmental mandate,” and requires an agency plan for giving notice and opportunity for timely input to potentially affected small governments before

establishing any requirements that might significantly or uniquely affect them. On March 18, 1997, DOE published a statement of policy on its process for intergovernmental consultation under UMRA. 62 FR 12820. DOE's policy statement is also available at [www.energy.gov/sites/prod/files/gcprod/documents/umra\\_97.pdf](http://www.energy.gov/sites/prod/files/gcprod/documents/umra_97.pdf).

DOE examined this proposed withdrawal of determination according to UMRA and its statement of policy and determined that the proposed withdrawal of determination does not contain a Federal intergovernmental mandate, nor is it expected to require expenditures of \$100 million or more in any one year by State, local, and Tribal governments, in the aggregate, or by the private sector. As a result, the analytical requirements of UMRA do not apply.

#### *H. Review Under the Treasury and General Government Appropriations Act, 1999*

Section 654 of the Treasury and General Government Appropriations Act, 1999 (Pub. L. 105-277) requires Federal agencies to issue a Family Policymaking Assessment for any rule that may affect family well-being. This proposed withdrawal of determination would not have any impact on the autonomy or integrity of the family as an institution. Accordingly, DOE has concluded that it is not necessary to prepare a Family Policymaking Assessment.

#### *I. Review Under Executive Order 12630*

Pursuant to E.O. 12630, "Governmental Actions and Interference with Constitutionally Protected Property Rights," 53 FR 8859 (March 18, 1988), DOE has determined that this proposed withdrawal of determination would not result in any takings that might require compensation under the Fifth Amendment to the U.S. Constitution.

#### *J. Review Under the Treasury and General Government Appropriations Act, 2001*

Section 515 of the Treasury and General Government Appropriations Act, 2001 (44 U.S.C. 3516, note) provides for Federal agencies to review most disseminations of information to the public under information quality guidelines established by each agency pursuant to general

guidelines issued by OMB. OMB's guidelines were published at 67 FR 8452 (Feb. 22, 2002), and DOE's guidelines were published at 67 FR 62446 (Oct. 7, 2002). Pursuant to OMB Memorandum M-19-15, Improving Implementation of the Information Quality Act (April 24, 2019), DOE published updated guidelines which are available at:

<https://www.energy.gov/cio/department-energy-information-quality-guidelines>. DOE has reviewed this proposed withdrawal of determination under the OMB and DOE guidelines and has concluded that it is consistent with applicable policies in those guidelines.

#### *K. Review Under Executive Order 13211*

E.O. 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use," 66 FR 28355 (May 22, 2001), requires Federal agencies to prepare and submit to OIRA at OMB, a Statement of Energy Effects for any significant energy action. A "significant energy action" is defined as any action by an agency that promulgates or is expected to lead to promulgation of a final rule, and that: (1) is a significant regulatory action under Executive Order 12866, or any successor order and is likely to have a significant adverse effect on the supply, distribution, or use of energy; or (2) is designated by the Administrator of OIRA as a significant energy action. For any significant energy action, the agency must give a detailed statement of any adverse effects on energy supply, distribution, or use should the proposal be implemented, and of reasonable alternatives to the action and their expected benefits on energy supply, distribution, and use.

This proposed withdrawal of determination is not a significant regulatory action under E.O. 12866. Moreover, it would not have a significant adverse effect on the supply, distribution, or use of energy, nor has it been designated as such by the Administrator at OIRA. Accordingly, DOE has not prepared a Statement of Energy Effects.

#### *L. Review Under the Information Quality Bulletin for Peer Review*

On December 16, 2004, OMB, in consultation with the Office of Science and Technology Policy (“OSTP”), issued its Final Information Quality Bulletin for Peer Review (“the Bulletin”). 70 FR 2664 (Jan. 14, 2005). The Bulletin establishes that certain scientific information shall be peer reviewed by qualified specialists before it is disseminated by the Federal Government, including influential scientific information related to agency regulatory actions. The purpose of the Bulletin is to enhance the quality and credibility of the Government’s scientific information. Under the Bulletin, the energy conservation standards rulemaking analyses are “influential scientific information,” which the Bulletin defines as “scientific information the agency reasonably can determine will have, or does have, a clear and substantial impact on important public policies or private sector decisions.” 70 FR 2664, 2667.

In response to OMB’s Bulletin, DOE conducted formal peer reviews of the energy conservation standards development process and the analyses that are typically used and prepared a report describing that peer review.<sup>1</sup> Generation of this report involved a rigorous, formal, and documented evaluation using objective criteria and qualified and independent reviewers to make a judgment as to the technical/scientific/business merit, the actual or anticipated results, and the productivity and management effectiveness of programs and/or projects. Because available data, models, and technological understanding have changed since 2007, DOE has engaged with the National Academy of Sciences to review DOE’s analytical methodologies to ascertain whether modifications are needed to improve the Department’s analyses. DOE is in the process of evaluating the resulting report.<sup>2</sup>

*M. Review Under Additional Executive Orders and Presidential Memoranda*

---

<sup>1</sup> The 2007 “Energy Conservation Standards Rulemaking Peer Review Report” is available at the following website: [www.energy.gov/eere/buildings/downloads/energy-conservation-standards-rulemaking-peer-review-report-0](http://www.energy.gov/eere/buildings/downloads/energy-conservation-standards-rulemaking-peer-review-report-0) (last accessed July 1, 2022).

<sup>2</sup> The report is available at [www.nationalacademies.org/our-work/review-of-methods-for-setting-building-and-equipment-performance-standards](http://www.nationalacademies.org/our-work/review-of-methods-for-setting-building-and-equipment-performance-standards).

DOE has examined this proposed withdrawal of determination and has tentatively determined that it is consistent with the policies and directives outlined in E.O. 14154 “Unleashing American Energy,” E.O. 14192, “Unleashing Prosperity Through Deregulation,” and Presidential Memorandum, “Delivering Emergency Price Relief for American Families and Defeating the Cost-of-Living Crisis.” This proposed withdrawal of determination, if finalized as proposed, is expected to be an E.O. 14192 deregulatory action.

### **III. Public Participation**

#### *A. Participation in the Webinar*

The time, date, and location of the webinar listed in the **DATES** and **ADDRESSES** sections at the beginning of this document.

Webinar registration information, participant instructions, and information about the capabilities available to webinar participants will be published on DOE’s website: [www.energy.gov/eere/buildings/public-meetings-and-comment-deadlines](http://www.energy.gov/eere/buildings/public-meetings-and-comment-deadlines). Participants are responsible for ensuring their systems are compatible with the webinar software.

#### *B. Procedure for Submitting Prepared General Statements for Distribution*

Any person who has an interest in the topics addressed in this NOPR, or who is a representative of a group or class of persons that has an interest in these issues, may request an opportunity to make an oral presentation at the webinar. Such persons may submit requests, along with an advance electronic copy of their statement in PDF (preferred), Microsoft Word or Excel, WordPerfect, or text (ASCII) file format, to the appropriate address shown in the **ADDRESSES** section at the beginning of this document. The request and advance copy of statements must be received at least one week before the webinar and are to be emailed. Please include a telephone number to enable DOE staff to make follow-up contact, if needed.

#### *C. Conduct of the Webinar*

DOE will designate a DOE official to preside at the webinar and may also use a professional facilitator to aid discussion. The meeting will not be a judicial or evidentiary-type public hearing, but DOE will conduct it in accordance with section 336 of EPCA. (42 U.S.C. 6306) A court reporter will be present to record the proceedings and prepare a transcript. DOE reserves the right to schedule the order of presentations and to establish the procedures governing the conduct of the public meeting. There shall not be discussion of proprietary information, costs or prices, market share, or other commercial matters regulated by U.S. anti-trust laws. After the public meeting, interested parties may submit further comments on the proceedings, as well as on any aspect of the proposed withdrawal of coverage, until the end of the comment period.

The webinar will be conducted in an informal, conference style. DOE will present a general overview of the topics addressed in this proposed rulemaking, allow time for prepared general statements by participants, and encourage all interested parties to share their views on issues affecting this proposed rulemaking. Each participant will be allowed to make a general statement (within time limits determined by DOE), before the discussion of specific topics. DOE will allow, as time permits, other participants to comment briefly on any general statements.

At the end of all prepared statements on a topic, DOE will permit participants to clarify their statements briefly. Participants should be prepared to answer questions by DOE and by other participants concerning these issues. DOE representatives may also ask questions of participants concerning other matters relevant to this proposed rulemaking. The official conducting the public meeting will accept additional comments or questions from those attending, as time permits. The presiding official will announce any further procedural rules or modification of the previous procedures that may be needed for the proper conduct of the webinar.

A transcript of the public meeting will be included in the docket, which can be viewed as described in the Docket section at the beginning of this document and will be accessible on the

DOE website. In addition, any person may buy a copy of the transcript from the transcribing reporter.

#### *D. Submission of Comments*

DOE will accept comments, data, and information regarding this notification of proposed determination no later than the date provided in the **DATES** section at the beginning of this document. Interested parties may submit comments, data, and other information using any of the methods described in the **ADDRESSES** section at the beginning of this document.

*Submitting comments via [www.regulations.gov](http://www.regulations.gov).* The [www.regulations.gov](http://www.regulations.gov) web page will require you to provide your name and contact information. Your contact information will be viewable to DOE Building Technologies staff only. Your contact information will not be publicly viewable except for your first and last names, organization name (if any), and submitter representative name (if any). If your comment is not processed properly because of technical difficulties, DOE will use this information to contact you. If DOE cannot read your comment due to technical difficulties and cannot contact you for clarification, DOE may not be able to consider your comment.

However, your contact information will be publicly viewable if you include it in the comment or in any documents attached to your comment. Any information that you do not want to be publicly viewable should not be included in your comment, nor in any document attached to your comment. Otherwise, persons viewing comments will see only first and last names, organization names, correspondence containing comments, and any documents submitted with the comments.

Do not submit to [www.regulations.gov](http://www.regulations.gov) information for which disclosure is restricted by statute, such as trade secrets and commercial or financial information (hereinafter referred to as Confidential Business Information (“CBI”). Comments submitted through [www.regulations.gov](http://www.regulations.gov) cannot be claimed as CBI. Comments received through the website will waive any CBI claims

for the information submitted. For information on submitting CBI, see the Confidential Business Information section.

DOE processes submissions made through *www.regulations.gov* before posting. Normally, comments will be posted within a few days of being submitted. However, if large volumes of comments are being processed simultaneously, your comment may not be viewable for up to several weeks. Please keep the comment tracking number that *www.regulations.gov* provides after you have successfully uploaded your comment.

*Submitting comments via email.* Comments and documents submitted via email also will be posted to *www.regulations.gov*. If you do not want your personal contact information to be publicly viewable, do not include it in your comment or any accompanying documents. Instead, provide your contact information in a cover letter. Include your first and last names, email address, telephone number, and optional mailing address. With this instruction followed, the cover letter will not be publicly viewable as long as it does not include any comments.

Include contact information each time you submit comments, data, documents, and other information to DOE. No faxes will be accepted.

Comments, data, and other information submitted to DOE electronically should be provided in PDF (preferred), Microsoft Word or Excel, or text (ASCII) file format. Provide documents that are not secured, that are written in English, and that are free of any defects or viruses. Documents should not contain special characters or any form of encryption and, if possible, they should carry the electronic signature of the author.

*Campaign form letters.* Please submit campaign form letters by the originating organization in batches of between 50 to 500 form letters per PDF or as one form letter with a list of supporters' names compiled into one or more PDFs. This reduces comment processing and posting time.

*Confidential Business Information.* Pursuant to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit via email two well-marked copies: One copy of the document marked “confidential” including all the information believed to be confidential, and one copy of the document marked “non-confidential” with the information believed to be confidential deleted. DOE will make its own determination about the confidential status of the information and treat it according to its determination.

It is DOE policy that all comments may be included in the public docket, without change and as received, including any personal information provided in the comments (except information deemed to be exempt from public disclosure).

#### *E. Issues on Which DOE Seeks Comments*

DOE welcomes comments on all aspects of this proposed withdrawal of determination. DOE is particularly interested in receiving comments and views of interested parties concerning whether withdrawing the coverage determination of compressors as a covered equipment is consistent with the purpose of Part A-1 of EPCA.

DOE is also interested in receiving views concerning other relevant issues that participants believe would affect the tentative conclusions presented in this document.

After the expiration of the period for submitting written statements, DOE will consider all comments and additional information that is obtained from interested parties or through further analyses, and it may prepare a final withdrawal of the coverage determination for compressors.

#### **IV. Approval of the Office of the Secretary**

The Secretary of Energy has approved publication of this notice of proposed withdrawal of determination; request for comment.

#### **List of Subjects**

## **10 CFR Part 429**

Administrative practice and procedure, Confidential business information, Energy conservation, Household appliances, Imports, Incorporation by Reference, Intergovernmental relations, Reporting and recordkeeping requirements, Small businesses.

## **10 CFR Part 431**

Administrative practice and procedure, Confidential business information, Energy conservation, Incorporation by Reference, Reporting and recordkeeping requirements.

## **Signing Authority**

This document of the Department of Energy was signed on May 9, 2025, by Chris Wright, Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the *Federal Register*.

Signed in Washington, DC, on May 9, 2025.

**Treana V. Garrett,**  
*Federal Register Liaison Officer,*  
*U.S. Department of Energy.*

For the reasons set forth in the preamble, DOE is proposing to amend parts 429 and 431 of chapter II, subchapter D, of title 10 of the Code of Federal Regulations, to read as set forth below:

**PART 429 – CERTIFICATION, COMPLIANCE, AND ENFORCEMENT FOR  
CONSUMER PRODUCTS AND COMMERCIAL AND INDUSTRIAL EQUIPMENT**

1. The authority for part 429 continues to read as follows:

**Authority:** 42 U.S.C. 6291-6317; 28 U.S.C. 2461 note.

**§ 429.63 [Removed and Reserved]**

2. Remove and reserve § 429.63.

**PART 431 - ENERGY EFFICIENCY PROGRAM FOR CERTAIN COMMERCIAL AND  
INDUSTRIAL EQUIPMENT**

3. The authority citation for part 431 continues to read as follows:

**Authority:** 42 U.S.C. 6291-6317; 28 U.S.C. 2461 note.

**Subpart T [Removed and Reserved]**

4. Remove and reserve subpart T, consisting of §§ 431.341 through 431.346.
