Abstract: The NO_x SIP Call was created to reduce emissions of nitrogen oxides (NO_x) from power plants and other large combustion sources. NO_x is a prime ingredient in the formation of ground-level ozone (smog), a pervasive air pollution problem in many areas of the eastern United States. The NO_x SIP Call requires affected states to include certain provisions in their state implementation plans (SIPs) addressing emissions of NO_x that adversely affect air quality in other states. Although most large combustion sources affected under the NO_x SIP Call are also subject to monitoring requirements under the Acid Rain Program or the Cross-State Air Pollution Rule, this information collection is being renewed because some industrial sources in certain states are still required to monitor and report emissions data to EPA under these rules, so we will

account for their burden. All data received by EPA will be treated as public information. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

Form Numbers: None.

Respondents/affected entities: Entities that participate in the NOx SIP Call.

Respondent's obligation to respond: Mandatory (Sections 110(a) and 301(a) of the CAA).

Estimated number of respondents: 376 (total).

Frequency of response: Yearly, Quarterly, Occasionally

Total estimated burden: 156,640 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$25,058,685 (per year), which includes \$10,398,033 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 16,414 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to an increased estimation of expected sources reporting under the NOx SIP Call. In the previous ICR, the EPA anticipated states and sources to exercise a newly implemented option to utilize less burdensome monitoring and reporting, but fewer states than expected exercised that option for sources within their borders.

Director, Information Engagement Division.
