**Abstract of information available**

Beginning in at least 1931 and through to 1956, various individuals removed at minimum, one ancestor and 77 lots of associated funerary objects from CA-YOL-45 and CA-YOL-53 in Yolo County, California. The 77 lots of associated funerary objects include projectile points, organic materials, basketry, faunal remains, fishing implements, worked stone, baked clay,

beads, and pipes. The ancestral remains and belongings were accessioned by the University of California, Berkeley's Museum of Anthropology (today the Phoebe A. Hearst Museum of Anthropology) between 1937 and 1956.

Collections and collection spaces at the Phoebe A Hearst Museum of Anthropology were treated with substances for preservation and pest control, some potentially hazardous. No records have been found to date at the Museum to indicate whether or not chemicals or natural substances were used prior to 1960.

### **Determinations**

The University of California, Berkeley has determined that:
