SUPPLEMENTARY INFORMATION:

I. Background

The Office of Workers' Compensation Programs (OWCP) administers the Federal Employees' Compensation Act (FECA), 5 U.S.C. § 8101 et seq. The statute provides for the payment of benefits for wage loss and/or for permanent impairment to a scheduled member, arising out of a work-related injury or disease. The Act outlines the elements of pay which are to be included in an individual's pay rate, and sets forth various other criteria for determining eligibility to and the amount of benefits, including: augmentation of basic compensation for individuals with qualifying dependents; a requirement to report any earnings during a period that compensation is claimed; a prohibition against concurrent receipt of FECA benefits and benefits from the Office of Personnel Management or certain Department of Veterans Affairs benefits; a mandate that money collected from a liable third party found responsible for the injury for which compensation has been paid is applied to benefits paid or payable.

A Peace Corps Volunteer who sustains an injury or

contracts an illness overseas while in Peace Corps service may be entitled to benefits under the FECA. Peace Corps Volunteers are in the performance of duty while abroad during the period of Peace Corps service for purposes of FECA coverage. An injury sustained outside the United States during service is deemed proximately caused by such service, unless the injury or illness was proximately caused by willful misconduct, intention to bring about injury or death, or intoxication.

The Sam Farr and Nick Castle Peace Corps Reform Act of 2018 (Farr-Castle), regulates various aspects of the Peace Corps, including changes to the provision of health care to volunteers. The legislation is named in honor of former Peace Corps volunteers Sam Farr, a retired Democratic congressman, and Nick Castle, who lost his life at age 23 while serving overseas in the Peace Corps in 2013.

The Peace Corps was established on September 22, 1961, by Public Law 87-293, known as the "Peace Corps Act." It authorizes the enrollment of qualified citizens and nationals of the United States as "volunteers" and "volunteer leaders" for service abroad in interested countries and areas, to help the people of such countries and areas in meeting their needs for trained workers, and to help promote a better understanding of the American people on the part of the peoples served and a better understanding of other peoples on the part of the American

people.

Under the provisions of the FECA, 5 U.S.C. 8142 of the FECA provides that,

(a) For the purpose of this section, "volunteer" means—

(1) a volunteer enrolled in the Peace Corps under section 2504 of title 22;

(2) a volunteer leader enrolled in the Peace Corps under section 2505 of title 22; and

(3) an applicant for enrollment as a volunteer or volunteer leader during a period of training under section 2507(a) of title 22 before enrollment.

Entitlement to disability compensation payments does not commence until the day after the date of termination of service as a volunteer. 5 U.S.C. 8142(b).

Farr-Castle directs the Secretary of the Department of Labor to authorize the Director of the Peace Corps to furnish medical benefits to a volunteer, who is injured during the volunteer's period of service, for a period of 120 days following the termination of such service if the Director certifies that the volunteer's injury probably meets the requirements set forth in 5 U.S.C. 8142(c)(3). The Secretary may then certify vouchers for these expenses for such volunteers out of the Employees' Compensation Fund.

OWCP and the Peace Corps collaborated on this form which authorizes medical treatment for recently terminated Peace

Corps volunteers who require medical treatment for injuries/exposure sustained in the performance of their volunteer service. Issuance of this form will solely be at the discretion of the Peace Corps. This bridges the gap between the occurrence of an initial injury and/or disease exposure and the actual adjudication of a claim by OWCP by helping ensure that recently terminated volunteers receive prompt medical care, without delay, for a period of 120 days following separation from service.
