SUPPLEMENTARY INFORMATION: The NOAA's Science Advisory Board (SAB) was originally established by a Decision

Memorandum dated September 25, 1997. In 2017, the SAB became a non-discretionary committee when Congress mandated that the SAB shall continue to maintain two specific subcommittees [Weather Research and Forecasting Innovation Act of 2017 (Pub. L. 115-25) secs. 401, 508]. The SAB is the only Federal Advisory Committee with responsibility to advise the Under Secretary of Commerce for Oceans and Atmosphere on long- and short-range strategies for research, education and the application of science to resource management and environmental assessment and prediction. SAB activities and advice provide necessary input to ensure that National Oceanic and Atmospheric Administration (NOAA) science programs are of the highest quality and provide optimal support to resource management.

The SAB expects that public statements presented at its meetings will not be repetitive of previously submitted verbal or written statements. Executive Director's Office

(noaa.scienceadvisoryboard@noaa.gov) by July 11, 2025 to provide sufficient time for SAB review. Written comments received by the SAB Executive Director after these dates
