[Project No. 2660-038]

Woodland Pulp, LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed Woodland Pulp, LLC's application for surrender of license for the Forest City Project No. 2660 and have prepared an Environmental Assessment (EA) for the project.¹ The licensee proposes to surrender its license and leave the project dam in place and operational. The project is located on the East Branch of the St. Croix River in Washington and Aroostook counties, Maine. The project does not occupy Federal land.

The EA contains Commission staff's analysis of the potential environmental effects of the proposed surrender, alternatives to the proposed action, and concludes that the proposed surrender would not constitute a major Federal action that would significantly affect the quality of the human environment.

The EA may be viewed on the Commission's website at <https://www.ferc.gov> using the "eLibrary" link. Enter the docket number (P-2660) in the docket number field to access the document.
