SUPPLEMENTARY INFORMATION:

I. Abstract

The Department of Commerce is responsible for the Baldrige Performance Excellence Program (BPEP) and the Malcolm Baldrige National Quality Award (MBNQA), the nation's highest award for organizational performance excellence. Directly associated with this award is the Board of Examiners, an integral volunteer workforce for BPEP. NIST manages BPEP. An applicant organization for the MBNQA is required to perform two steps online: (1) the applicant organization self-certifies that it meets eligibility requirements; and (2) the applicant organization completes the application portion which consists of responses to questions about the organization used as context for the evaluation, and responses to the award criteria questions. BPEP staff are available by phone or email to respond to any questions or issues that the applicant may have concerning the application processes. Volunteer industry experts serving on the Board of Examiners will use the information submitted to assess and provide feedback on the applicant's performance excellence practices. These practices could lead to a MBNQA awarded by the President of the United States or their delegate.

Per Public Law 100-107 (Malcolm Baldrige National Quality Improvement Act of 1987), the MBNQA helps to stimulate American companies to improve quality and productivity for the pride of recognition while obtaining a competitive edge through increased profits; recognizes the achievements of those companies that improve the quality of their goods and services and provide an example to others; establishes guidelines and criteria that can be used by business, industrial, governmental, and other organizations in evaluating their own quality improvement efforts; and provides specific guidance for other American organizations that wish to learn how to manage for high quality by making available detailed information on how winning organizations were able to change their cultures and achieve eminence.

The application to be a member of the Board of Examiners is a one-step, secure, online process. Each year, BPEP recruits highly skilled experts in the fields of manufacturing, service, small business, health care, education, and nonprofit, the six Award eligibility categories, to

evaluate the applications that BPEP receives. Examiners must successfully complete an in-depth virtual training course and serve for a one-year term; participation on the board is entirely voluntary.

BPEP's mission to improve the competitiveness and performance of U.S. organizations for the benefit of all U.S. residents.
