The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

1. Description of Request: Avista Corporation (Avista) requests Commission approval to rehabilitate the spillway at the North Channel Dam by replacing all existing gates. The North Channel Dam is L-shaped, and its primary spillway structure currently consists of one 100-foot-long rolling sector gate, seven 21-foot-long Tainter gates, and one 12-foot-long Tainter gate. The proposed rehabilitation involves replacing the existing spillway gates within the same footprint without any significant change in elevation, surface area,

or capacity. The project would not alter the project boundary, reservoir levels, down-ramping rate, or minimum flow requirements. The project would also continue to operate under the terms of its current license and applicable Water Quality Certification. Avista states that no resource agencies have objected to the proposed work, and no long-term impacts to project operations or environmental resources are anticipated. However, the proposed work would result in temporary ground disturbance and a pause in aesthetic spills during construction.

m. Locations of the Application: This filing may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. Comments, Protests, or Motions to Intervene: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214, respectively. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but
