RIN 2120-AA66

#### Amendment of Class D and Class E Airspace; Elkhart and Goshen, IN

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** This action proposes to amend the Class D and Class E airspace at Elkhart, IN, and the Class E airspace at Goshen, IN. The geographic coordinates of the Elkhart Municipal Airport, Elkhart, IN, and the Goshen Municipal Airport, Goshen, IN, would also be updated to coincide with the FAA's aeronautical database. The FAA is proposing this action as the result of airspace reviews conducted due to the decommissioning of the Goshen very high frequency omnidirectional range (VOR) as part of the VOR Minimum Operational Network (MON) Program. This action will bring the airspace into compliance with FAA orders and supports instrument flight rule (IFR) procedures and operations.

**SUPPLEMENTARY INFORMATION:**

**Authority for this Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend the Class D airspace and the Class E airspace extending upward from 700 feet above the surface at Elkhart Municipal Airport, Elkhart, IN, and the Class E airspace extending upward from 700 feet above the surface at

Goshen Municipal Airport, Goshen, IN, to support IFR operations at these airports.

### **Comments Invited**

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it received on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

*Privacy:* In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to [www.regulations.gov](http://www.regulations.gov) as described in the system of records notice (DOT/ALL-14FDMS), which can be reviewed at [www.dot.gov/privacy](http://www.dot.gov/privacy).

### **Availability of Rulemaking Documents**

An electronic copy of this document may be downloaded through the Internet at [www.regulations.gov](http://www.regulations.gov). Recently published rulemaking documents can also be accessed through the FAA's web page at [www.faa.gov/air\\_traffic/publications/airspace\\_amendments/](http://www.faa.gov/air_traffic/publications/airspace_amendments/).

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the

address, phone number, and hours of operations). An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

### **Incorporation by Reference**

Class D and E airspace is published in paragraphs 5000 and 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11J, dated July 31, 2024, and effective September 15, 2024. These updates would be published subsequently in the next update to FAA Order JO 7400.11. FAA Order JO 7400.11J, which lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points, is publicly available as listed in the **ADDRESSES** section of this document.

### **The Proposal**

The FAA is proposing an amendment to 14 CFR part 71 by:

Modifying the Class D airspace: (1) to within a 4.7-mile (increased from a 4.3-mile) radius of Elkhart Municipal Airport, Elkhart, IN; (2) updating the geographic coordinates of the airport to coincide with the FAA's aeronautical database; (3) increasing the exclusion area around Mishawaka Pilots Club Airport to 1.5 miles (increased from 1 mile); (4) updating the title of the South Bend, Michiana Regional Airport, IN, (previously Michiana, IN) Class C airspace contained within the legal description; and (5) updating the outdated term "Airport/Facility Directory" to "Chart Supplement";

Modifying the Class E airspace extending upward from 700 ft above the surface: (1) to within a 7.2-mile (increased from a 6.8-mile) radius of Elkhart Municipal Airport; (2) adding an extension within 4 miles each side of the 270° bearing of the Elkhart Muni: RWY 27-LOC extending from the 7.2-mile radius to 11.4 miles west of the airport; (3) removing the exclusionary language as it is no longer required; and (4) updating the geographic coordinates of

the airport to coincide with the FAA's aeronautical database;

Also, modifying the Class E airspace extending upward from 700 ft above the surface: (1) to within a 7.9-mile (increased from a 6.8-mile) radius of the Goshen Municipal Airport, Goshen, IN; and (2) updating the geographic coordinates of the airport to coincide with the FAA's aeronautical database.

This action is the result of airspace reviews conducted as part of the decommissioning of the Goshen VOR as part of the VOR MON Program.

### **Regulatory Notices and Analyses**

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### **Environmental Review**

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
