II. Background

The NRC received a request for approval of a partial site release from ADP (the licensee), by letter dated February 10, 2025 (ADAMS Package Accession No. ML25041A177). ADP requests NRC approval to remove 618 acres of property, classified as either radiologically non-impacted or Multi-Agency Radiation Survey and Site Investigation Manual Class 3, associated with the Crystal River Unit 3 Operating License No. DPR-72 in accordance with section 50.83 of title 10 of the *Code of Federal Regulations* (10 CFR), "Release of part of a power reactor facility or site for unrestricted use." In addition, the application requested the NRC to remove another 3,854 acres of property, classified as radiologically non-impacted, from the Crystal River Unit 3 Operating License as approved on January 2, 2020 (ADAMS Accession No. ML19339G509).

The CR3 license (NRC License No. DPR-72, Docket No. 50-302) is for a power reactor under 10 CFR part 50, "Domestic Licensing of Production and

Utilization Facilities.” The facility was certified as permanently shut down, per NRC regulations in 10 CFR 50.82(a), by letter dated February 20, 2013 (ADAMS Accession No. ML13056A005). ADP is actively decommissioning this site pending the termination of the power reactor license.

As described in 10 CFR 50.83(e), the NRC will determine whether the licensee has adequately evaluated the effect of releasing the properties per the requirements of 10 CFR 50.83(a)(1), determine whether the licensee’s classification of any released areas as “non-impacted” is adequately justified, and if the NRC determines that the licensee’s submittal is adequate, the NRC will inform the licensee in writing that the release is approved.

III. Request for Comment and Public Meeting

The NRC will conduct a public meeting to answer questions and gather comments regarding ADP’s request for approval of the partial site release. The meeting will be held on Wednesday, July 23, 2025, from 5:30 p.m. until 7 p.m. ET, at the Citrus County Chamber of Commerce, located at 915 N Suncoast Blvd, Crystal River, FL 34429.

This is a Category 3 public meeting where stakeholders are invited to fully engage NRC staff to provide a range of views, information, concerns and suggestions with regard to ADP’s request for approval of the partial site release. After the licensee and the NRC staff presentation portion of the meeting, the public is allowed to speak and ask questions. Comments can be provided orally or in writing to the NRC staff present at the meeting. The NRC will consider and, if appropriate, respond to these written and verbal comments, but such comments will not otherwise constitute part of the decisional record.

Stakeholders interested in attending this meeting should monitor the NRC’s Public Meeting Schedule website at: <https://www.nrc.gov/public-involve/public-meetings/index.cfm> for additional information, meeting agenda and access information for the public meeting.

Dated: June 27, 2025.

For the Nuclear Regulatory Commission.
