II. Additional Information about the Proposed Consent Decree

The proposed consent decree would establish a deadline for EPA to take action pursuant to CAA section 110(k) on the San Joaquin Valley Unified Air Pollution Control District’s “2022 Plan for the 2015 8-hour Ozone Standard” and the California Air Resources Board’s (CARB’s) aggregate emissions reduction commitments in a Staff Report titled “CARB Review of the San Joaquin Valley 2022 Plan for the 70 ppb 8-Hour Ozone Standard” (considered together, the “2022 Ozone Plan”), submitted by the State of California on February 23, 2023. The 2022 Ozone

Plan addresses the nonattainment area SIP requirements for San Joaquin Valley for the 2015 ozone national ambient air quality standards.

The proposed consent decree would require EPA to file a status report on the Agency's progress towards action on the 2022 Ozone Plan by October 15, 2025 and would require EPA to sign a notice of final rulemaking by July 17, 2026, and, within 15 business days of signature, to send the required signed notice of final rule to the Office of Federal Register for review and publication.

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.
