

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XF052]

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and
Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 90 South Atlantic red snapper post data workshop webinar
3 (Discard Mortality).

SUMMARY: The SEDAR 90 assessment process of South Atlantic red snapper will
consist of a Data Workshop, a series of assessment webinars, and a Review Workshop.
See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 90 Post Data Workshop Webinar 3 (Discard Mortality) will be
held August 6, 2025, from 10 a.m. to 12 p.m. EDT.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to
members of the public. The established times may be adjusted as necessary to
accommodate the timely completion of discussion relevant to the assessment process.
Such adjustments may result in the meeting being extended from or completed prior to
the time established by this notice.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Emily L. Ott, SEDAR Coordinator;
(843) 302-8434. Email: Emily.Ott@safmc.net.

SUPPLEMENTARY INFORMATION:

The Gulf, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NMFS and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: 1) Data/Assessment Workshop, and 2) a series of webinars. The product of the Data/Assessment Workshop is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses, and describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. Participants for SEDAR Workshops are appointed by the Gulf, South Atlantic, and Caribbean Fishery Management Councils and NMFS Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the SEDAR 90 Post Data Workshop Webinar 3 are as follows:

- Review any data issues remaining regarding discard mortality
- Finalize any data decisions remaining regarding discard mortality
- Continue discussion on modelling issues and decisions.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under

section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see ADDRESSES) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.
